SOUTH PACIFIC OCEAN.

SAMOA OR NAVIGATOR ISLANDS.

*Vailele bay—Shoal in fairway of western entrance.*

THE British Admiralty has given notice (No. 179 of 1893) that a shoal, on which the sea breaks with heavy swell, lies in the fairway of the western entrance of Vailele bay, north coast of Upolu island. This shoal extends about one cable in a N.-W. by W. and S.-E. by E. direction, with probably about 2 fathoms water on it. Its east end (6 fathoms water) lies with Branker bearing S.-W. by W.  $\frac{1}{4}$  W., distant about  $7\frac{1}{4}$  cables. Between the shoal and the western reef, the edge of which is always visible, there is a channel with depths of 10 to 16 fathoms; the best channel, however, is southward of the shoal, keeping close to the north-west edge of the eastern reef, which is steep to and apparently clear of danger.

Approximate position of shoal, lat.  $13^{\circ} 50\frac{1}{2}'$  S., long.  $171^{\circ} 41'$  W.

EASTERN ARCHIPELAGO—KE ISLANDS.

*Ke Dulan harbour—Bank in fairway of approach.*

THE British Admiralty has given notice (No. 180 of 1890) that the Commander of the Netherlands steam-vessel *Zeemeewind* reports the existence of a bank, lying in the fairway of approach to Ke Dulan harbour from the north-eastward, with Tanjong Serbat, bearing about S.  $\frac{1}{2}$  W., distant  $3\frac{3}{8}$  miles. The bank was indicated by the discolouration of water; the least depth obtained was 9 fathoms, but there is probably shoaler water in the vicinity.

Position to be considered doubtful; lat.  $5^{\circ} 28' 45''$  S., long.  $132^{\circ} 47' 45''$  E.

*Sunken rocks south-west of fairway of western entrance.*

THE British Admiralty has given notice (No. 157 of 1893) of the existence of the three undermentioned sunken rocks lying about  $2\frac{1}{2}$  cables south-west of the "Best track through" the western entrance to Simonoseki (Nagato) strait, as shown on Admiralty charts:—

1. A rock (*Katanose rock*) with  $3\frac{1}{2}$  fathoms water on it, lies with Kita saki, bearing N.  $79^{\circ}$  E., distant nearly  $1\frac{3}{4}$  miles, and Manaita rock beacon S.  $44^{\circ}$  E.  
Approximate position: lat.  $33^{\circ} 57' 5''$  N., long.  $130^{\circ} 50' 50''$  E.
2. A rock (*Toridashi rock*), with  $2\frac{1}{2}$  fathoms water on it, lies with Smooth hill ( $365'$  high) bearing N.  $84^{\circ}$  E., distant 2 miles, and Manaita rock beacon S.  $43^{\circ}$  E.  
Approximate position: lat.  $33^{\circ} 56' 30''$  N., long.  $130^{\circ} 51' 30''$  E.

3. A rock (*Kasaze rock*), with one fathom water on it, lies with Smooth hill (*Oinoyama*) bearing N.  $64^{\circ}$  E., distant  $1\frac{6}{10}$  miles, and Manaita rock beacon S.  $43^{\circ}$  E.

Approximate position : lat.  $33^{\circ} 56' 5''$  N., long.  $130^{\circ} 52' 15''$  E.

CHINA—EAST COAST—PUTOY GROUP—HONGKONG APPROACH.

*Intended double flashing light and fog-signal on Wag lan islet.*

THE British Admiralty has given notice (No. 160 of 1893) of the intended exhibition of a light from a light-house now in course of construction on Wag lan islet, Putoy group, approach to Hongkong by the Tathong channel :—

Wag lan islet light will be a *double flashing white* light of the first order, showing flashes at intervals of *half a minute*. It will be elevated 225 feet above the sea, and should be visible in clear weather, where not obscured by the land, from a distance of about 21 miles.

The light-house situated on the summit of the islet will be 52 feet high, and cylindrical in shape. The lower half will be painted white, the upper half red, the lantern and keepers' dwellings, white.

Approximate position : lat.  $22^{\circ} 11\frac{1}{2}'$  N., long.  $114^{\circ} 18\frac{1}{2}'$  E.

Also, that on the establishment of Wag lan islet light, the keepers, on hearing a bell, horn, steam-whistle, or other sound indicating the proximity of a vessel, will fire two guns with an interval of *fifteen seconds* between them, and if the vessel's fog-signal—showing that she is under way—continues to be heard, the guns will be repeated after an interval of *twelve minutes*.

AUSTRALIA, EAST COAST—PORT CURTIS.

*Alteration in North channel and buoy altered in position.*

THE British Admiralty has given notice (No. 146 of 1893) that the sand spit (opposite Junction buoy) on the northern side of the North channel to port Curtis has extended about 73 yards in a south-easterly direction, and that the red buoy has been moved to mark its extremity. The channel in this port being now only about 270 yards wide, Mariners should exercise caution when using it at night, and when proceeding through, Gatcombe head light (*fixed white and red*) should not be opened northward of Oyster rock reflected light.

RED SEA, WESTERN SHORE—MASSAWA CHANNEL, NORTHERN APPROACH.

*Breakers reported in fairway.*

THE British Admiralty has given notice (No. 150 of 1893) that Mr. Kemp Saunders commanding the S.S. *Shat-el-Arab*, when proceeding towards Suez from the Massawa channel sighted breakers about 35½ miles N. ¼ E. from Difein island:—

A cast of the lead obtained 8½ miles N. by W. ¼ W. from the breakers gave no bottom at 115 fathoms.

Approximate position of breakers, lat. 17° 13' N., long. 89° 20½' E.

NOTE.—This break was passed at about 2 miles distance, at noon; the appearance of the break being seen for an hour; a northerly swell prevailing. The position appears unascertainable. Unless therefore the eye was deceived by fish, light, or other delusive appearances, it would appear that a most dangerous shoal exists in the very fairway of approach to Massawa channel.

THE British Admiralty has given notice (No. 179 of 1893) that a shoal, on which the sea breaks with heavy swell, lies in the fairway of the western entrance of Vailele bay, north coast of Upolu island. This shoal extends about one cable in a N.-W. by W. and S.-E. by E. direction, with probably about 2 fathoms water on it. Its east end (6 fathoms water) lies with Branker bearing S.-W. by W.  $\frac{1}{4}$  W., distant about  $7\frac{1}{2}$  cables. Between the shoal and the western reef, the edge of which is always visible, there is a channel with depths of 10 to 16 fathoms; the best channel, however, is southward of the shoal, keeping close to the north-west edge of the eastern reef, which is deep to and apparently clear of danger.

AUSTRALIA—EAST COAST—BRISBANE RIVER BAR.

*Pile light-house—Alteration in Tidal signals.*

WITH reference to notice to Mariners No. 63, dated 13th March 1893, issued by this office, the British Admiralty has given further notice (No. 192 of 1893) that on 1st March 1893 the tidal signals in use at all other ports in Queensland (see Notice to Mariners above referred to) would be adopted at Pile light-house, Brisbane river bar.

This alteration is made in consequence of the decreased depths of water in the various cuttings, for which the old code of tidal signals did not provide.

H. H. RISLEY,  
Secy. to the Govt. of Bengal.

## REPORT OF THE BRUCE INSTITUTION FOR THE YEAR 1892.

I. *Control.*—During the year under review the Ven'ble W. MacCarthy, Archdeacon of Calcutta, was appointed under rule 10 of the scheme for the management of the Institution to be a Governor, *vice* the Ven'ble F. R. Michell, retired. Sir Alfred Croft proceeded to Europe on furlough for 15 months in April, and during his absence Mr. C. H. Tawney, C.I.E., Officiating Director of Public Instruction, acted as Honorary Secretary to the Governors until the 27th December, when he retired, and was succeeded by Dr. Martin. The following is a list of the Governors at the close of the year:—

The Hon'ble the Chief Justice of Bengal	...	...	} <i>Ex-officio.</i>
The Most Revd. the Lord Bishop of Calcutta	...	...	
The Inspector-General of Civil Hospitals, Bengal	...	...	
The Chairman of the Calcutta Municipality	...	...	
The Director of Public Instruction ( <i>Honorary Secretary</i> )	...	...	
The Hon'ble Mr. Justice Beverley, C.S.			
The Ven'ble W. MacCarthy (Archdeacon of Calcutta).			
The Very Revd. Father Lafont, S.J., C.I.E.			
The Revd. F. W. Warne.			
W. H. Ryland, Esq.			
H. A. Bamford, Esq.			
Geo. Irving, Esq.			

Mr. J. D'Silva, the Assistant in charge of the office, died on the 23rd January, and was succeeded by Mr. F. D'Silva.

II. *Capital and Income.*—The capital of the Institution stood, as in the previous year, at Rs. 6,71,500, and is held in the form of a stock certificate by the Comptroller-General. It yields an annual net interest of Rs. 26,792, which is remitted to the Governors in half-yearly instalments in May and November, and is placed to the credit of the Institution in the Bank of Bengal.

III. *Election.*—The annual election was held at the end of August as usual. For the 12 vacancies advertised 91 applications were received, and 12 of the most deserving cases were selected for the foundation on the report of a Sub-Committee appointed for that purpose, composed of the Ven'ble the Archdeacon MacCarthy, the Very Revd. Father E. Lafont, S.J., C.I.E., and Mr. G. Irving. During the year under review there were four vacancies caused by the withdrawal of the girls by their parents or guardians; one girl was removed from the foundation owing to gross and repeated insubordination, and one girl died of consumption at the Loretto Convent, Italy. At the close of the year there were 125 girls on the foundation, distributed among the various schools as follows:—

Loretto Convent, Italy	...	...	...	61
Calcutta Free School	...	...	...	24

SENATE HOUSE,

The 1st May 1893.

### The Yearly Examination of Candidates for Fourth grade Accountants.

The yearly examination of candidates for fourth grade of Accountants, Public Works Department, will be held at the Civil Engineering College, Sibpur, on Monday and Tuesday, 5th and 6th June 1893, at 10-30 a.m.

### SUBJECTS.

	Full marks.	Minimum pass marks.
Writing (neatness, clearness, and rapidity) ...	100	45
Dictation (spelling, punctuation, &c.) ...	100	50
Arithmetic (whole course) ...	240	160
Mensuration (a) (whole book) ...	60	30
Book-keeping (b) (Mercantile) ...	100	50
Total ...	600	400

Minimum required in all papers collectively.

(a) Todhunter's Mensuration for Beginners.

(b) "Book-keeping," by Ball and Hamilton.

"Book-keeping" by double and single entry, by W. Inglis (Chambers' Educational Course).

*The marks gained by candidates who fail will not be published.*

1. The examination is held annually at the Civil Engineering College, Sibpur, on the 1st Monday in June. The examination will be conducted either at the College or by an Examiner, Public Works Accounts (including Railway and Telegraph), in Bengal, Assam and Burmah only.

Candidates will not be examined in any of the Calcutta offices.

2. Candidates not in Government employ, who wish to be examined at the College, must forward their applications direct to the Principal; those employed in Government offices through the head of their office, who will forward the application to the Principal.

All applications must reach the Principal 30 days before the date of examination.

3. The candidate should apply to an Examiner of Public Works Accounts not later than 30 days previous to the date fixed for the examination, and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must be forwarded by the candidate, not direct to the Principal, but through the Examiner.

4. All applications must be accompanied by a fee of Rs. 10 and the following certificates.

Certificates may be submitted in original, or true copies attested by an officer of the Engineer or Accounts Branch, but none will be returned:—

- (1) Certificate of good character signed by applicant's immediate official superior, or by the instructor under whom he has been educated, or by some other superior under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediately preceding the application.)
- (2) Certificate that candidate is under 25 years of age not required if candidate is in permanent Government employ, or an employé under District Boards.
- (3) Certificate that the application is in candidate's handwriting.

It will rest with the Principal of the College, on a consideration of these certificates, to decide whether the candidate should be registered for the examination, or whether his application should be rejected.

5. Copies of examination papers are not procurable except those that are issued for examination. These need not be returned.

6. Each examination is complete in itself. A candidate who has failed in an examination, and presents himself for examination on a subsequent occasion, must undergo the full examination and furnish a fresh fee and certificates.

7. Passed candidates should apply, not to the Principal of the College, nor to the Accountant-General, Public Works Department, but direct to the Examiner of Public Works Accounts in the Province or Railway under whom they may desire to be employed.

8. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments, preference will be given to qualified persons who are already employed in the Department.

J. S. SLATER, *Principal, Civil Engineering College.*

SIBPUR, the 3rd April 1893.

#### NOTICE

RAKHAL CHANDRA GHOSH, son of the late Babu Iswar Chandra Ghosh of Pichalpara, Madaripur, district Faridpur, having been found guilty of using a forged document with a view to obtaining admission into a school aided from public funds in a class higher than the class to which he properly belonged, will be refused admission into Government and aided institutions.

1. "Wild birds" for the purposes of these rules shall include jungle fowl, peafowl, peacocks, partridges, quail, plover, teal, and all birds not brought under domestication whose plumage is an article of commerce.

2. The Local Government having by notification, dated 28th February 1889, declared that the provisions of section 8, Act XX of 1887, shall apply to hares and deer, the following rules will apply to those animals also as well as to wild birds.

3. The "breeding season" for the purposes of these rules shall extend from the 15th March to the 15th August for all wild birds except quail. For quail the breeding season shall extend from May 1st to September 30th.

4. Whoever imports into Calcutta any wild bird, deer or hare during the breeding season or exposes for sale during the breeding season any such bird or animal living or dead, shall be liable to a fine not exceeding Rs. 5 for each such bird or animal.

5. Whoever during the breeding season imports into the town the plumage of any kind of wild bird of the fur or skin of any hare or deer shall be liable to a fine not exceeding Rs. 5 for each such bird or animal.

6. In the case of a second conviction the fine may extend to Rs. 10 for each bird or animal.

J. OWEN, for Secretary to the Corporation.  
Municipal Office, Calcutta, 17th April 1893.

### REVENUE DEPARTMENT.

#### REVISED ADVERTISEMENT.

**A Dictionary of the Economic Products of India**

By DR. G. W. WATT, C.I.E.

*Reporter on Economic Products.*

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first five volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The first five volumes and Vol. VI, Part I, of the Dictionary are now ready at the Office of Superintendent of Government Printing, No. 8, Hastings Street, Calcutta, and will be supplied to non-subscribers on receipt of the price for the complete set, which is Rs. 45 in India, and 3 guineas in England (exclusive of the Index, for which a separate charge will be made); for packing and postage, in India, 8 annas per volume; for England, Rs. 2-6 per volume. For copies bound in half calf or half morocco, Rs. 6 and 8 shillings, respectively, will be charged extra for the whole set.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets; &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty should be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal octavo pages; Vol. II embraces the letter C in 689 pages; Vol. III contains the letters D, E, F and half of G. Vol. IV latter half of G to middle of L; and Vol. V contains the latter half of L to end of O; Vol. VI, which will consist of four parts) Part I contains letters P to R. The whole work will, it is expected, be completed in nine volumes (including Parts II to IV of Vol. VI) during the current year; but a tenth volume may also be issued, consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index will practically be a Glossary of the vernacular and European names of the plants, animals and minerals of India, and as such will be a work of reference, which, it is hoped, may prove of considerable value.

The period of registration of subscribers' names having expired on the 1st October, the price will in future be in India Rs. 45 and in England 3 guineas, payable in advance, for the complete set (exclusive of the Index, for which a separate charge will be made). An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England, at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately.

### RESOLUTION ON THE ANNUAL REPORT OF THE HEALTH OFFICER OF THE PORT OF CALCUTTA FOR THE YEAR 1892.

No. 1119 Marine.

GOVERNMENT OF BENGAL, MARINE DEPARTMENT.

*Dated Calcutta, the 1st May 1893.*

#### RESOLUTION.

#### READ—

A letter, No. 2586, dated 28th March 1893, from the Sanitary Commissioner for Bengal, submitting the report of the Health Officer of the Port of Calcutta for the year 1892.

*Establishment.*—Dr. Forsyth was the Health Officer of the Port of Calcutta throughout the year, except from the 3rd September to 28th October, when Surgeon Captain Green officiated for him. The work was carried out in the steam launch *Relief*, and in a steam cutter.

2. *Inspections.*—The total number of vessels inspected by the Health Officer of the Port during the year was 1,497 against 1,501, 1,394, and 1,443 in the three preceding years. Sir Charles Elliott desires that in future reports the number of vessels that entered the Port in the year should be given with the number of vessels uninspected, and the reasons for such non-inspection.

3. *Ventilation of crew spaces.*—The ventilation of the fore-castle of iron built cargo steamers has, in a few cases, been improved, but in no instance has a wooden sheathing been laid over the iron roof.

The Health Officer writes:—"In the case of the Greenock Shipping Company, I hope that their vessels will be improved, as the Secretary was in port in April and May, and he admitted that the Managers had not the faintest idea of what life in the fore-castle was in the Indian hot season; that he would on his return place my suggestions before the Manager for immediate compliance; and that, in case of additions to their fleet, he would suggest that all quarters should be built on deck. In the latest additions to the City Line of steamers, quarters for the crew are built on the upper deck. The contrast between these and the quarters on the main deck is great, and no line visiting this port give their crews such well lighted and ventilated quarters."

The question of improving the accommodation for the crew of such steamers has been referred to the Government of India, in the Finance and Commerce Department, with the suggestion that the Board of Trade should be moved to endeavour to give effect to Dr. Forsyth's suggestions for sheathing the fore-castle deck, and for improving the ventilation of, and providing a double awning with side curtains for, the fore-castle. If the Board of Trade refuse to insist on these alterations being made, the Lieutenant-Governor is of opinion that it will be necessary to amend the Indian Ports Act of 1889 so far as to enable the Local Government to insist on such temporary alterations being made, while the vessel is in port, as will meet the requirements of the case.

4. *Bathing accommodation for native crews.*—The provision of a protected bathing place is being carried out on nearly all vessels coming to the port.

5. *Sickness and mortality among European seamen.*—The number of European seamen who arrived in the Port during the year was 21,635, against 21,505 and 19,496 in the two preceding years, and the daily average number in Port was 2,133 against 1,420 and 1,679. Including deaths out of hospital, the death rate per millo during the year was 11·72. Of this 3·28 was from cholera and 8·44 from other causes. The Lieutenant-Governor views with great satisfaction this low death-rate, which is the lowest on record.

The total number of natural deaths was 25, against 42 and 40 in the two preceding years. Of these 25 deaths, 22 occurred in hospital and 3 outside.

The total number of admissions into hospital was 2,204, against 1,284 and 1,419 in the two previous years. No reason is given for the large increase in the number of admissions into hospital.

The admissions from cholera numbered 12, with 7 deaths; from sunstroke 7, with 3 deaths; and from small-pox and scurvy 2 and 8 respectively, with no deaths. The number of cases of drowning was 8 against 9 and 14 in the two preceding years.

The Coroner of Calcutta having reported in the case of one of the deaths by drowning that there was unnecessary exposure to the sun, copies of Marine Notification No. 104 of the 14th April 1891, prohibiting work involving direct exposure to the sun between 9 A.M. and 4 P.M., were circulated to the Masters of Ships in the port, and the Commissioner of Police directed to prosecute under section 54 of the Indian Ports Act any breaches of the rule observed.

6. The following table gives the admissions into hospital of European seamen suffering from venereal diseases:—

Year.	Total admissions.	Rate per millo.
1883	237	127·4
1884	184	109·2
1885	170	100·4
1886	417	179·2
1887	228	120·4
1888	183	121·1
1889	186	114·3
1890	248	147·7
1891	185	129·7
1892	479	224·5

The number of admissions during the year is the highest on record, and the Health Officer reports that the masters of vessels complain of numbers of their crew being rendered unfit for work soon after leaving port from venereal affections.

7. There were 43 deaths at sea during the year on vessels entering the port, against 28 and 32 in the two preceding years.

8. *Sickness and mortality among the native floating population.*—The following figures give the mortality from all causes among the native floating population, the averages being calculated on a population of 25,000 :—

	Total deaths.		Ratio per mille.	
	1892.	1891	1892.	1891
Cholera	73	97	2.92	3.88
Bowel complaints	3	7	0.12	0.28
Fever, malarious	11	11	0.44	0.44
Do., simple	13	22	0.52	0.88
Other causes	32	33	1.28	1.32
Total	132	170	5.28	6.80

Of the 132 deaths, 35 occurred in hospital, of which 21 were from cholera.

9. *Food.*—The complaints as to the quality of food on board vessels coming to the Port were few, and of these only a few were justified. The Health Officer mentions that the sailors after being a long time in port are very desirous of occasionally being given salt meat as a change.

10. *Conservancy.*—The drain and latrine in Messrs. Ahmuty and Company's compound, noticed in the Resolution on the Annual Report of the Health Officer for 1891, has been altered to meet requirements, but the Health Officer reports that the brickfield foreshore at Ghosery, and the Mateabroog foreshore of Babu Doorga Prosonno Ghose's property, are still used as latrines by the public. The attention of the District Magistrates will be drawn to this.

11. *Corpses and carcasses.*—The Lieutenant-Governor is pleased to find from the Health Officer's report that there has been some decrease in the number of corpses and carcasses found floating in the river.

12. *Water supply.*—The supply of Municipal filtered water to the vessels in the port was satisfactory in every respect.

13. The Health Officer has, in the course of his report, made several suggestions and proposals which require much consultation and consideration from legal and other aspects. It should be remembered that the annual report is a record of the events of the year, and questions on which orders are required should be separately submitted.

The information given in the report regarding the accommodation of European seamen, the crowding of the quarters of native crews, the sea-diet scale of sailing vessels, and the facilities existing for the communication of reasonable grievances of sailors as regards the quality of their food, and the seaworthiness of the ship, is important as bearing on the welfare of seamen, and it is therefore well that the public should know that the alleged defects are under consideration, and that the question whether the Government can lawfully interfere in any of these matters, or would be well advised to do so, will be separately considered.

By order of the Lieutenant-Governor of Bengal,

C. W. ODLING,

Secretary to the Govt. of Bengal.

##### NOTIFICATION No. 9T—G.

*The 2nd May 1893.*—The University of London has acceded to the request of the Government of India that the Intermediate Examination in Arts and the B.A. Examination of the University may be held in Calcutta. These examinations begin each year on the third Monday in July and the fourth Monday in October respectively.

2. As it is necessary that applications for permission to appear at these examinations should reach the University of London four months before the date of the examination, candidates for examination must submit their applications to the Director of Public Instruction in the first week of January for the Intermediate Examination and in the first week of April for the Bachelor's Degree Examination.

3. For each examination a fee of £5 (five pounds sterling) will be charged. Each applicant will be required to remit in the first week of June for the Intermediate Examination, and in the first week of September for the Bachelor's Degree Examination, the sum of Rs. 100 (one hundred rupees) to the Director of Public Instruction either by money-order or by a note or notes for that amount in a cover registered and insured, or to pay the said amount in person to the Director. The £5 (five pounds sterling) fee will subsequently be paid by Government to the University, and the difference between the sum of one hundred rupees and the equivalent of five pounds sterling at the current rate of exchange for postal money-orders, or such rate as may hereafter be determined, will be returned to the candidate.

### NOTIFICATION.

*The 27th April 1893.*

No. 1431-I.—Whereas a capital sentence is occasionally passed by a British Court exercising in or with respect to territory beyond the limits of British India jurisdiction which the Governor-General in Council has in such territory;

And whereas there may be in such territory no secure place for the confinement of a prisoner under sentence of death or no suitable appliances for his execution in a decent and humane manner;

In exercise of the powers conferred by sections 4 and 5 of the Foreign Jurisdiction and Extradition Act XXI of 1879, and of all other powers enabling him in this behalf, the Governor-General in Council is pleased to direct as follows:—

1. When any person is sentenced to death by a British Court in the exercise of such jurisdiction as is referred to in the first paragraph of the preamble to this notification, and, in the opinion of the Court, such sentence should for any such reason as is referred to in the second paragraph of the said preamble be executed in British India, the Court shall issue its warrant for such execution to the Superintendent or keeper of a jail in British India, and shall in such warrant prescribe, as nearly as may be, the place in British India where such Superintendent or keeper is to cause the execution to be carried out.

2. The jail in British India to which the Court may send its warrant under the provisions of this notification shall be such as the Governor-General in Council, or a Local Government authorised by him in this behalf, may by general or special order direct.

3. Every warrant for the execution of a sentence of death to be issued by a Court under the provisions of this notification shall be in the form set forth in the schedule here to annexed.

#### SCHEDULE.

##### FORM OF WARRANT.

*To the Superintendent or Keeper of the Jail at \_\_\_\_\_ in British India.*

Whereas at a trial held on the \_\_\_\_\_ day of \_\_\_\_\_, 189\_\_\_\_, at (*name of place*), in (*name of territory*), before me, A. B. (*name of Judge*), being the presiding officer of a British Court exercising in (*or with respect to*) territory beyond the limits of British India jurisdiction which the Governor-General in Council has in such territory, C. D. (*name of prisoner*) was duly convicted of the offence of culpable homicide amounting to murder and sentenced to suffer death [*\*and the said sentence has been confirmed by E. F. (name of authority)*];

And whereas there is in (*name of territory*) no secure place for the confinement of a prisoner under sentence of death (*or no suitable appliances for the execution of a person under sentence of death in a decent and humane manner*);

And whereas this Court is of opinion that for the reasons aforesaid the said sentence should be executed in British India;

This is to authorise and require you, the said Superintendent (*or keeper*), being a Superintendent (*or keeper*) of a jail specified in an order under section 2 of Act No. V of 1893 passed by the Governor-General of India in Council, to receive the said C. D. (*prisoner's name*) into your custody in the said jail, together with this warrant, and there him safely to keep until the time hereinafter appointed, and then to carry the said sentence into execution by causing the said C. D. (*prisoner's name*) to be hanged by the neck until he be dead, at (*time and place of execution*), and to return this warrant to this Court with an endorsement certifying that the sentence has been executed.

Given under my hand and the seal of the Court, this \_\_\_\_\_ day of \_\_\_\_\_ 189\_\_\_\_.

(Seal.)

## Notice under Rule 19, Section II, Part I.

NOTICE is hereby given that the lease of the land specified in the schedule hereunto annexed, and of which the plan is open to inspection at the Office of the Commissioner of the Sundarbans, has been applied for by Haromni Dasi, and will be sold at 12 o'clock noon on the 14th August 1893, Monday, the 30th Sraban, 1300 B.S., at the Sundarbans Commissioner's Office at Alipur, unless meantime the sale is stopped or postponed in consequence of claims or objections under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands) or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below as well as to the general terms annexed to the rules for the sale of leases of waste lands in the Sundarbans of the 24-Parganas, Khulna, and Backergunge, dated the 12th November 1879.

*Conditions.*

That the land shall be subject to all existing rights-of-way and water and other easements.  
That the right of using all streams and channels in any way navigable shall be reserved to the public as also the use of a tow-path not less than 25 feet in width on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances or which may be used on the land. But for wood and timber exported for sale, a duty shall be levied at such rate and in such manner as may from time to time be prescribed by Government.

That the Government reserves to itself the right to all minerals on the land together with such rights-of-way and other reasonable facilities as may be requisite for working, getting, and carrying away such minerals. It also retains its proprietary right in the land, and only confers on the lessee an occupancy right which shall be hereditary and transferable.

1. In these rules the word "daybreak" shall be held to mean half an hour before sunrise, and the word "dark" to mean half an hour after sunset.

2. No vessel of the burthen of 200 tons or upwards coming into the port shall proceed above the house of the Superintendent of the Government Botanical Gardens (hereinafter called Garden House), or move from one place to another within the port above Garden House between sunset and daybreak, without the special permission of the Commissioners, provided that a vessel which has arrived above Garden House before sunset may at once proceed to a safe anchorage at any part of the port between Tolly's Nullah and Prinsep's Ghat.

\*3. No vessel of the burthen of 200 tons or upwards shall steam, sail, or be towed up on the flood, or down on the ebb, within the port, above Garden House, without the special permission of the Commissioners; and in cases where such permission is granted, the officers in charge shall be held strictly responsible for accidents which may occur in consequence of their taking the vessels up or down at a greater speed than is absolutely necessary in order to keep them under command; and in every case where such permission is granted, the speed of the vessels shall not exceed four miles an hour through the water. A vessel arriving off Garden House on the last quarter of the flood, and bound for the Kidderpore Docks, will be allowed to steam up until opposite the entrance of the Docks.

4. No vessel shall steam, sail, or be towed up on the ebb or down on the flood, within the port above Garden House, at a speed greater than four miles an hour over the ground.

5. Vessels entering the port at neap-tides during the freshets are permitted to proceed above Garden House at slackwater at a speed not exceeding four miles an hour over the ground.

\* With reference to Port Rule No. 3, the following instruction for the guidance of Assistant Harbour Masters is published for general information:—

Assistant Harbour Masters are forbidden, without a special order from the Harbour Master's Office, to turn outward-bound vessels until they are below the Lower College Sand Bay."

6. River steamers and tug-steamers having no vessels in tow are permitted to move up on the flood or down on the ebb at their own risk and at a speed sufficient to keep them under command; but in no case shall the speed within the port above Garden House exceed four miles an hour through the water.

7. No steam-vessel of the character described in the preceding rule shall proceed at a greater rate of speed than four miles an hour when inside the moorings, and no such steam-vessel shall proceed at a greater rate of speed than four miles an hour anywhere within the port above Garden House after dark. Without the special permission of the Commissioners, no steamers carrying passengers shall be under weigh after dark between the limits of the landing-stages at Hastings on the south and Aheerestollah on the north.

8. Vessels may at all times drop up or down the Port above Garden House with their anchors on the ground. Vessels using their own steam-power when dropping with the tide shall in no case proceed at a greater speed than is absolutely necessary in order to keep them under command.

9. Steam-tugs having no vessel in tow shall be permitted to enter the port after sunset at their own risk, but they shall not proceed above Chandpal Ghat. Steam-tugs shall be held liable for any damage which they may cause by moving at night.

10. Special permission may be given by the Commissioners to ferry-steamers to move in the port otherwise than is prescribed in these rules, due limitation being laid down as to place and hours of plying and speed in each case.

11. Inland steamers and flats lying above the Floating Bridge shall not haul out of moorings during the freshets on the last quarter of the ebb.

12. With the exceptions hereinafter noted, no vessel of or exceeding 200 tons burthen shall, without the special sanction of the Commissioners, move up or down the port through the ship-opening of the Floating Bridge, except such vessel is propelled or towed by steam against the tide, and then only at such rate of speed, not exceeding four miles an hour over the ground, as is absolutely necessary to keep good stowage way. No river steamer shall pass through the opening with more than two vessels in tow.

*Exceptions.*—Tug and river steamers, when not towing or propelling other vessels, may drop through the bridge opening, under steam, head to tide.

River flats may be dropped or warped at slack-water through the ship-opening or through the 60-foot openings.

Vessels not to pass each other in the opening.

Not more than two cargo-boats to be towed through the opening.

13. No steam-vessel shall attempt to pass any other vessel proceeding in the same direction whilst between the pontoons of the Floating Bridge.

14. No steam-vessel shall have in tow more than two cargo-boats when proceeding through the bridge-opening with the tide.

15. No steam-vessel shall pass through the bridge-opening without sounding its whistle.

16. All applications to be hauled into or cast off from the moorings, or for any other assistance, shall be made, either personally or by letter, to the Harbour Master. Applications will, as far as possible, be complied with in order according to date of receipt.

Vessels not to move without Harbour Master's permission.

17. After a vessel is moored, she shall not be moved without the permission of the Harbour Master.

Moorings not to be used without Commissioners' permission.

18. No vessels shall make fast to or use any of the moorings, whether fixed or swinging, without the permission of the Commissioners.

19. All vessels within the port shall take up such berths as may be appointed for them by the Commissioners or the Harbour Master, and shall move from one berth to another when ordered to do so; but this rule shall not apply to vessels when moving within the port between Budge-Budge and Garden House in charge of a pilot.

Vessels to be berthed and moved at the discretion of the Commissioners.

20. Vessels arriving in port with coal or other cargo likely to cause nuisance shall not moor above Garden Reach moorings without special orders.

Ships with coal cargoes.

21. No vessel within the port above Garden House shall have any anchor or spar, or other substance likely to cause damage, projecting from her side.

Vessels to remove projections from sides.

22. All vessels on arrival in the port shall rig in their jib and driver booms, and shall keep them so rigged in until the pilot takes charge of the vessel for the purpose of taking her to sea. They shall also strike their yards and masts when ordered by the Commissioners. Vessels proceeding to the jetties shall, when so required by the Assistant Harbour Master in charge, remove all boats and other projections likely to damage the jetties and cranes.

Vessels arriving in the port to rig in the jib and driver booms.

23. From the 1st day of May until the 30th day of June, and from the 1st day of October to the 15th day of November, all sailing vessels in port shall have their royal and top-gallant yards on deck, and mast-ropes rove in readiness to send the top-gallant masts down at short notice if required. Vessels about to leave the port may send their top-gallant yards aloft 48 hours before leaving the moorings. Vessels entering the port between the above dates, having top-gallant masts and yards aloft, may be placed in moorings, and the top-gallant yards of such vessels shall be sent down within 24 hours after they are moored.
24. On the occurrence of signs of an approaching cyclone, a black drum will be hoisted during daylight from the flagstaff on the roof of the Port Commissioners' Office, Koila Ghat, another from the flagstaff opposite the Government Dockyard, Kidderpore, and another at the Petroleum Wharf at Budge-Budge. During the night, under similar circumstances, two bright lights in a vertical line will be exhibited from the same flagstaffs. When these signals are displayed, masters of vessels shall immediately take every precaution in their power to make their vessels snug and secure, by having awnings furled, and the lower and top-sail yards counter-braced or pointed to the wind as seems best. The cables shall be bent to both bower anchors when possible.

25. When cargo is being loaded into, or unloaded from, any ship through any hatchway, Hatch covers and cross-pieces to be removed or slung. every hatch, fore and after, and cross-piece shall be either removed from it or slung separately by a lanyard of sufficient strength to prevent its falling into the hold.
26. All vessels in port shall adopt sufficient precautions and guards to prevent the dangerous discharge of steam in taking in or discharging cargo, or unto boats engaged in loading or discharging cargo. Careless discharge from steam-pipes prohibited.
27. Vessels referred to in rule 20 shall discharge their cargo from whichever side the Harbour Master may direct, and shall adopt such measures as he may order for the abatement of the nuisance arising from the discharge. Discharge of coal cargoes.
28. A free channel of not less than 200 yards in width shall be kept for ships moving up or down the river in the port, and also free passages to piers, jetties, landing-places, wharves, quays, docks, and moorings; and all vessels shall move when ordered to clear such channel or passages. Free channel of 200 yards to be kept.
29. The river between the lower buoy of the College Sand and Metteabrooj Ghat shall be kept clear for turning inward or outward-bound vessels, and no vessels shall anchor within these limits. Between the College Sand and Tolly's Nullah vessels cannot anchor without infringing the preceding rule. All vessels intending to anchor in Garden Reach shall be moored below Metteabrooj Ghat moorings in a clear swinging berth, as close to the south bank as the length and draught of the vessels will admit. Inward-bound vessels proceeding above Metteabrooj Ghat shall moor in the stream between Prinsep's Ghat and Tolly's Nullah, leaving the clear channel of 200 yards described by the preceding rule. Anchoring ground to be kept clear.
30. No vessels shall lie at single anchor in the port unless a Pilot or Assistant Harbour Master is on board. Lying at single anchor prohibited.
31. All vessels moored in the stream shall keep a clear hawse. Vessels in the stream to keep a clear hawse.
32. Vessels lying in the stream, or at the moorings, shall at all times have at least one anchor at the bow, with a cable bent and ranged ready to let go. In cases where the vessel has no spare hawse pipe the towing hawser is to be bent on over-all in lieu of the chain cable. Vessels to have an anchor at the bow.
33. All vessels lying at swinging moorings shall during the freshets (5th June to 31st October), in addition to their bower chain, have the end of a good hawser also fast to the ring of the moorings. Vessels at swinging moorings how to be fastened.
34. All vessels placed in the moorings on the ebb-tide shall, during spring-tides, when bores are expected, have their best hawsers passed from each quarter pipe abaft the mainmast, and made fast to the stern moorings if possible; otherwise to their own chains close to the moorings, and have taut with sufficient strain to relieve the jerk on the chains and bits when the bore comes up. Stern fastenings in time of bores.
35. Steam-vessels occupying moorings shall not turn their screws or paddles without giving sufficient warning of their intention to do so to boats in the vicinity: they shall not put full power on when trying their engines in the moorings, nor shall any trial under steam be permitted so long as a vessel is lying at the Jetties. Steamers occupying moorings not to move screws or paddles except under limitation.

*Rules for licensing and regulating cargo-boats.*

36. No cargo-boat or flat of any description shall ply within the Port unless licensed and registered by the Port Commissioners, under section 6, sub-section (1), clause (k) of Act X of 1889. No licensed and registered cargo-boat shall be allowed to ply within the port except under the direction of a manjee licensed and registered by the Port Commissioners.

37. Each application for the licensing and registration of cargo-boat shall be made in writing to the Port Commissioners, and contain particulars of the owner's name and residence, and the tonnage of the boat; and in the event of the owner not residing in Calcutta, the name and address of the agent duly authorized to act for him.

38. Every license granted under these rules shall continue in force for one year from the date on which such license was issued, unless it shall have been revoked under the provisions of these rules. The license is not transferable, and if the ownership of the boat is changed, notice of the transfer must be given to the Port Commissioners before the boat again plies in the port.

39. No license shall be granted to any cargo-boat until such boat has been surveyed by a Surveyor duly appointed for the purpose, and he shall have granted a certificate stating (a) that the boat is in good order and suited for the conveyance of cargo within the port; (b) the tonnage of such boat, that is the quantity of cargo she is authorized to carry as ascertained by the following rules; and (c) the number of crew required for the safe navigation of such boat, according to the annexed scale:—

*Rules for ascertaining tonnage of boats.*

*Length.*—Measure the length from the inside stem to inside stern post marked A B on sketch.

*Breadth.*—Measure the breadth from side to side inside ceiling plank, under the deck beams amidships, marked C D on sketch.

*Depth.*—Measure the depth from underside of deck beam amidships to upperside or floor ceiling plank, marked E F on sketch.

Then multiply the length, breadth, and depth together, and the product—

- by .009 for flush-decked, square-built, and open cargo boats;
- by .007 for bazar boats;
- by .0064 for open country-boats, such as pansways, bhurs, dinghees, and bhowlahs;
- by .0083 for open country-boats known as hollahs;
- by .0063 for open country-boats known as chotos.

The result will be the tonnage of the boat.

The foregoing formula shall be used in measuring boats of class 1 up to a burden of 50 tons, but the measurement of boats of that class exceeding 50 tons shall be made under the rules of the Merchant Shipping Act, provided that the Surveyor shall be authorized to measure boats of class 1 of any size under the rules of the Merchant Shipping Act, when the owners show that the measurements made according to the above formula are inaccurate or oppressive.

Having ascertained the tonnage of a boat, that is, the quantity of cargo she is authorised to carry in accordance with the foregoing rules, the Surveyor shall, by a conspicuous mark on the boat's side, indicate for every boat exceeding 10 tons the depth to which she will be immersed when carrying the quantity of cargo for which she is licensed.

**NUMBER OF CREW TO BE CARRIED BY CARGO-BOATS.****CLASS I.—Square built, open or decked cargo-boats.**

Boats of not more than 15 tons.	5 men, including manjee.

" " 30 "	5 " "
" " 40 "	6 " "
" above 40 }	7 " "
but not exceeding 50 }	" " "

40. The number of every licensed boat shall be branded by the Surveyor on the boat, and shall also be painted in white figures not less than six inches long on both sides of the boat.

41. The owner or his agent, or the manjee in charge of any licensed boat, shall not permit any quantity of cargo, more than that for which such boat has been licensed, to be carried in such boat at one time, and shall not permit such boat to ply unless provided with the number of crew stated in the license. The boat must be kept thoroughly clean and be provided with a pump, ground tackle, and fittings in working order as specified in the license.

42. The license granted for any cargo-boat may be revoked whenever such boat is, in the opinion of the Port Commissioners, unfitted for the conveyance of cargo, or when any breach of the conditions of the license or the Port Rules has been committed by the owner or his agent, or the manjee in charge of the boat.

43. No cargo-boat shall lie at the Inland Vessels Wharves, unless when receiving or discharging cargo, and all cargo-boats shall cast off from the mooring posts and move from one place to another when required by an officer duly authorised by the Port Commissioners.

44. No cargo-boat shall obstruct the free navigation of the port, or the approaches to wharves, jetties or landing-stages, and no cargo-boat shall be moored, or land, or ship goods at any bathing ghat.

45. Cargo-boats when under weigh within the port shall be under oars or sail to enable them to keep clear of moving steamers or ships.

46. Cargo-boats moving up or down in port when proceeding to or from vessels occupying fixed moorings shall keep as close as possible to the line of fixed moorings. Other cargo-boats moving up or down shall keep to the west of the line of swinging moorings.

47. Not more than three cargo-boats shall make fast to one mooring buoy at the same time, and any cargo-boat which has made fast to a mooring buoy shall cast off when required by an officer duly authorized by the Port Commissioners.

48. Every cargo-boat shall be provided with an iron caboose or fire-place, to be kept on deck or in such other part of the boat as the Surveyor may direct, and no fire shall be permitted in any other part of the boat. Every cargo-boat shall carry a light in a lantern in the forepart of the boat, where it can be distinctly seen when under weigh after dark.

49. The Port Commissioners may, if they think fit, at any time order any licensed cargo-boat to be re-surveyed without any charge to the owners, and they may also revoke at any time any license granted to any owner or manjee, and it shall be competent to the Commissioners to refuse any application for the issue of a license.

50. Whenever any accident shall occur to a licensed cargo-boat, the manjee in charge or the owner of the boat shall at once proceed to the nearest river police-station and report the circumstances connected with the accident to the officer in charge.

51. The owner or agent or manjee of a licensed cargo-boat who shall, without good reason, refuse to carry cargo in such boat shall, for every such refusal, be liable to the penalty prescribed by law for breach of these rules, and shall in addition be liable to have the licenses of the boat and the manjee revoked.

52. Every licensed cargo-boat when plying shall have its license on board, and it shall be produced when required.

53. Every registered manjee shall be provided with a metal license ticket, upon which shall be legibly painted the number of the manjee's license, and every such manjee when in charge of a licensed cargo-boat shall wear his ticket exposed to view. No manjee without such ticket shall be in charge of any licensed cargo-boat.

54. Whenever the number of any manjee's license ticket shall become obliterated or defaced, so that the same shall not be distinctly legible, and also when any manjee's license ticket shall have been lost or mislaid, the manjee shall apply to the Port Commissioners for a renewal thereof, and the Commissioners shall, upon the payment of the fee mentioned in the schedule, published under Notification, dated 1893, deliver to the manjee a new license ticket.

55. On the expiration or other determination of the license, the manjee shall deliver his metal ticket to the registering officer.

56. No manjee shall lend or transfer his ticket to any other person, and no other person shall use the ticket of a registered manjee.

57. No person in charge of any licensed cargo-boat plying within the limits of the port shall use, or wear, or have any ticket resembling the metal ticket granted under the authority of the rules.

58. The manjee of every licensed cargo-boat plying for hire within the port shall, when waiting for hire at the wharves, have a hiring note showing the rate at which such boat can be hired by the day; and any owner or agent failing to supply the manjee with such note shall, in addition to the fine prescribed for a breach of these rules, be liable to have the boat's license revoked.

59. Every owner or agent of a licensed cargo-boat shall, on the 1st August and 1st December in each year, submit a return to the Port Commissioners, showing the number of licensed boats belonging to him plying on the last day of the previous month.

#### *Rules for licensing and regulating passenger-boats.*

60. No catamaran, flat, passenger or other boat shall ply for hire, whether regularly or only occasionally in, or partly within and partly without, the limits of the Port, unless licensed and registered by the Port Commissioners as Conservators of the Port under the provisions of Act X of 1889. No such vessel shall be allowed to ply as aforesaid except under the direction of a person licensed by the Port Commissioners.

61. Every application for the licensing and the registration of a catamaran, flat, passenger or other boat shall be made in writing to the Port Commissioners, and contain particulars of the owner's name and residence, or in the event of the owner not residing in Calcutta, the name and residence of the agent duly authorized to act for him, a description of the vessel, and the number of passengers which it is intended to carry.

62. Every license granted under these rules shall continue in force for one year from the date on which such license was issued, unless it shall have been revoked under the provisions of these rules. The license is not transferable, and if the ownership of the boat is changed, notice of the transfer shall be given to the Port Commissioners before the boat again plies in the port.

63. No license shall be granted to any catamaran, flat, passenger or other boat, until such vessel shall have been surveyed by a Surveyor duly appointed for the purpose, and he shall have granted a certificate stating the following particulars:—

- (a) That such vessel is in good order and suited for the accommodation of passengers.
- (b) The number of crew required for the navigation of such vessel, and the number of such crew who should be required to remain on board at night or when the vessel is lying at anchor at other times is according to the following scales:—

*Crew required for navigation.*

Boat to carry not more than 10 passengers, 3 men, including manjee.

"	"	15	"	4	"	"	"
"	"	20	"	5	"	"	"
"	"	25	"	6	"	"	"
"	"	30	"	7	"	"	"

*Crew required to remain on board at night or when lying at anchor at other time.*

Boat licensed to carry	10 passengers	...	1 man.
"	15—20	"	2 men.
"	25	"	3 "
"	30—35	"	4 "

- (c) The number of persons in addition to the crew which, as ascertained by the following rule, may be safely carried therein at one time:—

*Rule for ascertaining the number of passengers catamarans, flats, passenger, and other boats are to carry.*

Divide the superficial area in square feet of the floor space available for the accommodation of passengers by 6, and the result will be the number of passengers the vessel may be licensed to carry.

64. The number of every licensed and registered vessel shall be branded by the Surveyor in some conspicuous part thereof.

65. The owner, or his agent, or the person in charge of any licensed catamarans, flats, passenger, or other boat shall not permit any number of persons more than that for which such vessel has been licensed to be carried therein at one time, and shall not permit such vessels to ply, unless provided with the number of crew stated in the license. The vessel shall be kept thoroughly clean.

66. In the computation of the number of persons in addition to the crew carried in any vessel, two children below the age of 12 years shall be counted as one person; and every two maunds weight of luggage shall be counted as equivalent to one person.

67. The license granted for any catamaran, flat, passenger or other boat may be revoked by the Port Commissioners whenever such vessel is, in the opinion of the Port Commissioners, unfitted for the conveyance of passengers, or when any breach of the conditions of the license or the Port Rules has been committed by the owner, or his agent, or the person in charge.

68. No catamaran, flat, passenger or other boat shall obstruct the free navigation of the port or the approaches to wharves, jetties, landing-stages, or occupy the portions of the bank set aside for bathing ghats.

69. The Port Commissioners may, if they think fit, at any time order any catamaran, flat, passenger or other boat to be resurveyed without any charge to the owners; and they may also revoke at any time any license granted for any such vessel, or to the person in charge thereof, and it shall be competent to the Commissioners to refuse any application for the issue of a license.

70. Whenever any accident shall occur to a registered catamaran, flat, passenger or other boat, the person in charge or the owner shall at once proceed to the nearest river police-station and report the circumstances connected with the accident to the officer in charge.

71. When any property belonging to passengers or others is left in a catamaran, flat, passenger or other boat unclaimed, the property so left shall be at once sent by the person in charge to the Superintendent, River Police, and a report of the circumstances connected with the property shall be entered in a book kept for that purpose by the police.

72. Any person in charge of a licensed catamaran, flat, passenger or other boat plying for hire for passengers in the port, who shall without good reason refuse to carry a passenger in such vessel shall, for every such refusal, be liable to the penalty prescribed by law for breach of these rules, and shall in addition be liable to have his own license and that of the vessel of which he is in charge revoked.

73. Every licensed catamaran, flat, passenger or other boat when plying shall have its license on board, which shall be produced when required.

74. Every person registered under Rule 1 shall be provided with a metal license ticket, upon which shall be legibly painted the number of his license; and every such person when in charge of a licensed vessel shall wear his ticket exposed to view. No person without such ticket shall be in charge of any catamaran, flat, passenger or other boat.

75. Whenever the number of any license ticket shall become obliterated or defaced so that the same shall not be distinctly legible, and also when any license ticket shall have been lost or mislaid, an application shall be made to the Commissioners for a renewal thereof, and the Commissioners shall, upon the payment of the fee mentioned in the schedule, published under Notification, dated 1893, supply a new license ticket.

76. On the expiration or other determination of any license, the ticket shall be returned to the registering officer.

77. No license ticket shall be lent or transferred to any other person, and no such ticket shall be used by any unlicensed person.

78. No person in charge of any registered catamaran, flat, passenger or other boat plying for hire for passenger traffic within the limits of the port shall use or wear, or have any ticket resembling the metal ticket granted under the authority of these rules.

79. No person shall smoke or use naked lights of any description in the hold or between-decks, or in any enclosed space on the upper deck in which stores, cargo or inflammable materials is stored of any vessel within the Port or in any dock belonging to the Port Commissioners within the Port.

80. Fires shall be permitted only in galleys or fire-places regularly constructed for the purpose; such fires to be kept alight only between daybreak and 9 p.m. Cooking fires shall not be allowed on board of vessels in dock.

81. With a view to the extinction of fires, all vessels in port shall be provided with three buckets for every hundred tons of registered measurement up to 600 tons, and two additional buckets for every 100 tons above 600; provided that the total number of buckets shall not be required to exceed 50 in any vessel. One-half of the number of such buckets shall be left constantly hanging up on the quarter-dock or other convenient place.

\*82. When fire has broken out in any vessel, the officers in charge of all vessels in neighbouring moorings or anchorage shall furl their awnings, get their force pumps ready for use, and prepare for slipping their cables and chains, seeing specially that the pins of the shackles can be immediately knocked out.

83. All vessels anchored or moored in the stream within the port shall exhibit, between sunset and sunrise, where it can best be seen, but at a height not exceeding 20 feet above the hull of the vessel, a white light in a globular lantern of eight inches in diameter, and so constructed as to show a clear, uniform, and unbroken light visible all round the horizon, and at a distance of at least one mile. Vessels under weigh at night shall show the lights prescribed by the Board of Trade's Regulations.

84. All coasting-vessels, cargo-boats, bhurs, budgerows, up-country boats, and passenger boats, when under weigh on the river after dark within the limits of the port, shall carry a white light in a lantern in the forepart of the vessel, where it can be distinctly seen, and all steam-vessels shall show, when under weigh, the lights prescribed by the Board of Trade's Regulations.

85. All vessels about to leave the port shall hoist the Blue Peter at the fore at least 24 hours before leaving the moorings, and shall keep it hoisted until the pilot takes charge of the vessel to take her to sea.

86. Whenever it shall appear to the Conservator that any vessel may, without danger to other vessels, be aloft without such crew as hereinbefore is mentioned being maintained thereon, it shall be lawful to the Conservator, if he shall think fit, to grant under his hand a license in the Form A in the second schedule hereto, which license may be made determinable on the breach of any conditions therein contained; and during the continuance of such license, the provision of Rule 1 shall not apply to such vessel.

87. It shall be lawful for the Conservator, by any writing under his hand, in the Form B in the second schedule hereto, to revoke such license; and from and after the publication of such revocation, by posting a copy thereof upon some conspicuous part of such vessel, the provisions of Rule 1 shall apply to such vessel and to the master and owner thereof as if no such license has ever been granted.

88. Whenever it shall appear to the Conservator that any creek, river, or dock is so situated that vessels without any crew therein, may remain aloft in such creek, river, or dock, without danger to any vessels in any part of the port, it shall be lawful for the Conservator to make an order in the Form C in the second schedule hereto, and from time to time, if he shall think fit, to revoke or amend such order. Provided always that every such order, amendment, and revocation shall be published in the *Calcutta Gazette*, and that no such order, amendment, and revocation shall have any force or effect until it shall have been so published.

\* For the better security of vessels against damage or loss by fire, a steam floating fire-engine has been provided and is always kept under steam, ready to proceed at once to any place where her services may be required. The fire-engine station is at Fort Point, where the vessel is moored, and where a look-out is kept day and night. In case fire breaks out on board a vessel, notice should at once be sent to the fire-engine station.

89. During such time as any such order shall remain in force, the provisions of Rule 89. During continuance of order, ships to be exempt from necessity of maintaining crews. I shall not apply to any vessel lying or being within the limits of any such creek, river, or dock, as the same shall be defined by such order.

90. No master or officer for the time being in charge of, or doing duty on board any ship shall, on and from the 1st day of April to the 31st day of October inclusive, employ, or cause to be employed, any European seaman or apprentice in cleaning or painting vessels between the hours of 9 A.M. and 4 P.M., necessitating the direct exposure of such seaman or apprentice to the rays of the sun.

91. Masters of vessels requiring work to be performed in bilges, boilers, and double bottoms shall take precautions to ensure that working in such places is free from all danger before the men are sent into them.

92. On the occurrence of a case of cholera, small-pox, or other dangerously communicable disease on board any ship lying in the port, the master shall, as early as possible, send the affected person to hospital, and shall cause the flag R to be hoisted at the fore as a signal to the Health Officer of the Port, and such signal shall not be lowered until the Health Officer has visited the ship.

93. The master shall afford such information in regard to the occurrence of the disease as the Health Officer may require, and shall carry out such responsible instructions regarding the cleaning and disinfection of the vessel, and the disposal of polluted clothing, bedding, &c., as that officer may consider it necessary to give.

94. ## Notice under Rule 19, Section II, Part I.

NOTICE is hereby given that the lease of the land specified in the schedule hereunto annexed, and of which the plan is open to inspection at the Office of the Commissioner of the Sundarbans, has been applied for by Haromani Dasi, and will be sold at 12 o'clock noon on the 14th August 1893, Monday, the 30th Sraban, 1300 B.S., at the Sundarbans Commissioner's Office at Alipur, unless meantime the sale is stopped or postponed in consequence of claims or objections under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands) or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below as well as to the general terms annexed to the rules for the sale of leases of waste lands in the Sundarbans of the 24-Parganas, Khulna, and Backergunge, dated the 12th November 1879.

*Conditions.*

That the land shall be subject to all existing rights-of-way and water and other easements.

That the right of using all streams and channels in any way navigable shall be reserved to the public as also the use of a tow-path not less than 26 feet in width on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances or which may be used on the land. But for wood and timber exported for sale, a duty shall be levied at such rate and in such manner as may from time to time be prescribed by Government.

That the Government reserves to itself the right to all minerals on the land together with such rights-of-way and other reasonable facilities as may be requisite for working, getting, and carrying away such minerals. It also retains its proprietary right in the land, and only confers on the lessee an occupancy right which shall be hereditary and transferable.

*Exc. Engr., Nadia Rivers Division.*  
 5th May 1893.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

## Notice

It is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

The List of Books available for sale at the Secretariat Press will in future be published once only in each month. Spare copies of the List will, however, be kept in stock ready for issue on receipt of applications for them.

## Notice under Rule 19, Section II, Part I.

NOTICE is hereby given that the lease of the land specified in the schedule hereunto annexed, and of which the plan is open to inspection at the Office of the Commissioner of the Sundarbans, has been applied for by Natobar Bera and another, and will be sold at 12 o'clock noon on the 14th August 1893, Monday, the 30th Sraban, 1300 B.S., at the Sundarban Commissioner's Office at Alipur, unless meantime the sale is stopped or postponed in consequence of claims or objections under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands) or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below, as well as to the general terms annexed to the rules for the sale of leases of waste lands in the Sundarbans of the 24 Parganas, Khulna, and Backergunge, dated the 12th November 1879.

*Conditions.*

That the land shall be subject to all existing rights-of-way and water and other easements.

That the right of using all streams and channels in any way navigable shall be reserved to the public, as also the use of a tow-path not less than 25 feet in width on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances, or which may be used on the land. But for wood and timber exported for sale, a duty shall be levied at such rate and in such manner as may from time to time be prescribed by Government.

That the Government reserves to itself the right to all minerals on the land, together with such rights-of-way and other reasonable facilities as may be requisite for working, getting, and carrying away such minerals. It also retains its proprietary right in the land, and only confers on the lessee an occupancy right, which shall be hereditary and transferable.

Aug., 20th	46	12mo. dy	1st...	3,000	Printed	0 2 0	.....	There are many new features in this work. At the end of every lesson there are verses which, if committed to memory, are likely to create a deep impression upon the mind.	234
Oct., 30th	92	12mo. dy	1st ..	1,000	ditto ...	0 5 0	Naranāth Mahanta, Nowgong.	This is said to be a <i>parāddhyāya</i> or a section of a book of the Mahābhārata. Duryodhana desires to celebrate the horse sacrifice, but Karmavali, the King of Kurmatpur in Assam captures the horse. He conquers every one of the Kaurava chiefs, but is conquered by Bhishma. This appears to be an apocryphal chapter of the Mahābhārata current in Assam only. The present work is by Sāgar Khari an Assam poet of whom very little is known.	235
Aug., 15th	146	12mo. dy	5th...	1,000	ditto ...	0 7 0	Haliram Medhi, Gauhati.	Much additional matter has been incorporated in this edition.	236

Nov., 2nd	30	8vo. dy.	1st...	500	ditto ...	.....	.....	Bhāskarānanda is a celebrated ascetic of Benares. He is said to possess miraculous powers and his stone image is worshipped in many temples.	1144
Oct., 2nd	162	8vo dy.	1st...	1,000	ditto ...	0 10 0	Nilmani Mukherji, 24, Girish Vidyaratna's Lane, Calcutta.	The Lives of Queen Elizabeth and Emperor Charles V.	1145
May, 13th	28	12mo dy	1st...	1,000	ditto ...	0 4 0	Sverna Kumāri Devi, Kasiabagan, Ultadighi.	The feelings of Hindu brides and bridegrooms before their final union is delineated with some power. The ceremony of the marriage of a poet has been painted in glorious colours.	1146
.....	41	4 to ri.	1st...	.....	ditto ...	5 0 0	.....	Based on the story of Chitrāngadā, the princess of Manipur, as given in the first book of the Mahābhārata. The writer has embellished the story with incidents of his own, and has introduced the character of Madana and Basanta, the Gods of love and of the spring. The book is copiously illustrated by Avanudranāth, a near kinsman of the author.	1147

A comprehensive and elaborat-work on the origin and progress of social organizations, and on the way one society influences another. The chief object of the work seems to be to show how the social organization of the Hindus has been affected by the influence of western civilization and how the Hindus can still hold their own. The work is the result of lifelong patient thought, reading, observation and reflection.	1222

H. J. S. COTTON,  
*Chief Secy. to the Govt. of Bengal.*

#### REVENUE DEPARTMENT—(FORESTS).

##### NOTIFICATION—No. 2291 For.

*The 17th May 1893.*—The Lieutenant-Governor hereby notifies, under section 4 of the Indian Forest Act (VII of 1878), that it is proposed to constitute the land within the boundaries described below reserved forests under the provisions of the said Act :—

District.	Pargana or other sub- division.	Name of Forest.	Boundaries.
Darjeeling .	Sadar sub-division	Pujampong ...	North.—The boundary lines of the Pujampong alias Takdah Khas Mahal. East.—Takdah freehold grant. South.—The Pashok road. West.— Ditto.

The Lieutenant-Governor is pleased to appoint the Deputy Commissioner of Darjeeling to be the Forest Settlement Officer, who will, under the provisions of Chapter II of the Indian Forest Act, determine the boundaries to be finally laid down; and enquire into and determine the existence, nature and extent of any rights alleged to exist in favour of any person in or over any land comprised within the boundaries specified above, or in or over any forest produce to be found therein, in cases where claims to such rights are preferred by any individual or community under section 6 of the said Act; and will also himself ascertain, as far as possible, and enquire into the existence of any rights mentioned in section 4 or 5 of the said Act, within the said boundaries, which are not claimed under section 6, so far as the same may be ascertainable from the records of Government and the evidence of any persons likely to be acquainted with the same; and will otherwise perform the duties of a Forest Settlement Officer under that chapter.

The Lieutenant-Governor is also pleased, under section 16 of the Indian Forest Act, to appoint the Commissioner of the Rajshahi Division to hear appeals from the decision of the Forest Settlement Officer as above appointed.

H. H. RISLEY,  
Secy. to the Govt. of Bengal.

#### NOTIFICATION No. 2263L.R.

The 15th May 1893.—In continuation of the notification, dated the 17th June 1890, and notification No. 4476L.R., dated the 27th December 1892, published at pages 603-14 and 1170-71, Part I of the *Calcutta Gazette* of the 18th June 1890 and 28th December 1892, respectively, the Lieutenant-Governor is pleased to direct that the following rules shall be substituted for rules 12 to 17 of section A and rule 25 of section B of the Revenue Money-order Rules, Part III; and that the following form shall be substituted for the Form <sup>2</sup> R. M. O.

H. H. RISLEY,  
Secy. to the Govt. of Bengal.

### PART III.

#### PAYMENT OF REVENUE MONEY-ORDERS.

##### SECTION A.—*Procedure in the Office of payment.*

12. When the Revenue Money-orders are in all respects\* ready to be handed over to the Postman, a list in triplicate† (Form <sup>2</sup> R. M. O.) should be made out by the Money-order Clerk, and the entries in the money column of the list should be carefully totalled. The original copy of the list will take the place of the journal of Money-order paid, the duplicate of the list will be sent to the Treasury under the procedure described below, and the triplicate of the list will be the list for the Comptroller. When the number of Revenue Money-orders for payment in one day is more than enough to fill a single sheet of Form <sup>2</sup> R. M. O., each sheet should be separately totalled, and a grand total should be made at the end of the last sheet of the list or on a separate sheet. The date stamp of the office of payment should be impressed in the space provided for it on the coupon (chalan) for each Money-order.

13. The Postmaster should then check the entries in the list with those on the Money-orders, and also check the total of the money column. He will then prepare a Treasury Voucher (Form A—C 14), representing the total value of the Money-orders as entered at the foot of the list.

This addition to rule 13 embodies rule 14 as given in the Government Notification No. 4476L.R., dated the 27th December 1892. A place is thus given for the new rule 17 without altering the numbers of the subsequent rules.

The amount represented by the Treasury Voucher will not be charged against the letter of credit, and will be paid quite independently of the balance of any letters of credit held by the Treasury in favour of the Post-office.

14. The money-orders, the duplicate copy of the list, and the Treasury Voucher duly filled up, should then be made over to the Postman for delivery at the Collectorate, the Postman's receipt for the documents being taken in the usual manner in the Register of Money-orders received.

15. The Postman will take the duplicate copy of the list, the Money-orders and the Treasury Voucher to the Treasury Officer, and will receive back from the Treasury Officer the Money-orders without the coupons and acknowledgments. The Postman will be careful to see that he receives back all the Money-orders, and that they are all duly receipted by the Treasury Officer.

\* Only the total number and amount of Revenue Money-orders received for payment need be entered in the Register of Money-orders received. In order, however, that the record may be complete, it will be necessary to make a note in the last column of the Register whenever all the Revenue Money-orders received in one day are not included in the list of that date. For example, if in the Register of Money-orders received on the 5th July there are shown 500 Revenue Money-orders for Rs. 10,000, but 300 of these orders for Rs. 7,000 were received too late for inclusion in the list sent to the Collectorate on the 5th, there should be an entry in the last column of the Register in this form:—  
200 for Rs. 3,000 included in list of 5th.  
300 for Rs. 7,000 included in list of 6th.

† The duplicate and triplicate will be prepared by carbonic paper and a hard pencil must therefore be used in writing the list.

16. The paid Money-orders received back from the Treasury will be examined by the Money-order Clerk in the same way as ordinary Money-orders, and checked in detail with the original list. The total amount of the Money-orders will then be entered in the journal of Money-orders paid by a single entry thus: "As per Revised Money-order list IIII." The classification columns of the triplicate list will then be filled up and the Money-orders will be disposed of in the usual way.

17. The original and triplicate lists will be kept with the journal of Money-orders paid until the next list of ordinary Money-orders paid is sent to the Comptroller, when the corresponding list of Revenue Money-orders paid will also be sent, the paid Money-orders being arranged in order and attached to the lists. The original lists will then be filed, a separate file of original lists being kept with each journal of Money-orders paid, so that the dates of the journal and file of Revenue Money-order lists correspond.

SECTION B.—*Procedure to be followed in the Collectorate.*

25. On receipt in the Treasury of the duplicate copy of the list, the Money-orders, and Treasury Voucher, the Treasury Officer will check and compare the documents. If there is any error, he will return all the documents to the Post-Office with a note of the error or errors. When the documents are correct, the Treasury Officer will at once cut off the portion of each Money-order containing the coupon and acknowledgment, sign and date the Money-orders (as payee), and return the paid Money-orders to the Postman. The Treasury Officer will retain the lower portion of each Money-order, including the coupon and acknowledgment, the duplicate list of Money-orders (Form E.M.O.) and the Treasury Voucher. No Money-order received from the Post-office may be refused.

The acceptance of a Revenue Money-order after kist day is to be treated in the same manner as the receipt of a personal payment of revenue after kist day.

## NOTIFICATION.

*The 22nd May 1893.*

*No. 39 Marine.*—In exercise of the powers conferred on him by section 126, sub-section (3) of the Calcutta Port Act, 1890, the Lieutenant-Governor is pleased to sanction the following bye-laws which have been framed by the Commissioners of the Port of Calcutta under section 126, sub-section (1), and section 127 of the Act for regulating the working of the Kidderpore Docks.

C. W. ODLING,  
Secy. to the Govt. of Bengal.

*Bye-laws made by the Commissioners in Meeting under sections 126 and 127 of the Calcutta Port Act, 1890.*

1. No stages, planks, poles or any article provided by the Commissioners for vessels loading or discharging shall be used without a written order from the Dock or Jetty Superintendent, and when the discharging or loading is completed, they shall be replaced on the quay or Jetty alongside the vessels.

All stages, planks, poles, or other articles, not provided by the Commissioners, after use in discharging or loading, shall be removed within 24 working hours from the Dock or Jetty premises.

2. All the quays, sheds, gates, and the land within the Dock or Jetty fence shall be in charge of the Dock or Jetty Superintendent, who will manage all operations connected with the landing and shipping of goods, storage in the sheds and open. He will be responsible for the proper custody of all goods within the enclosure and exclusion of improper characters, and will take whatever steps may be necessary for the proper maintenance of order on the premises.

3. The allotment of a berth shall be entirely at the discretion of the Commissioners, but as a general rule vessels will be accommodated in the order of their arrival at the Dock entrance or off the Jetties.

4. Masters and owners of vessels shall obey the directions of, and shall offer no obstruction to, Dock or Jetty officers in mooring, unmooring, moving or removing any vessel from one part of the Dock or Jetties to another part, or in regulating the position for loading and discharging of such vessels.

5. When berthed or moored in the Dock, a ship's propeller shall not be worked for trial by the main engines without due notice being given to, and permission obtained in writing from, the Dock Superintendent.

6. Projections from any vessel, whilst hauling in or out of Dock or to or from the Jetties, or which interfere with another vessel's loading or discharging, shall be removed on requisition by the Dock or Jetty Superintendent or other duly authorized officer of the Commissioners.

7. No fender which will not float shall be used over the side of a vessel. Sails shall only be loosed with the Dock Superintendent's permission, and must be stowed at once on his order. In all cases they must be stowed before sunset.

8. If the Dock Superintendent considers that there is good reason why a vessel should not be admitted into the Dock, he may refer the question to the Commissioners, pending whose decision he may refuse to allot a berth.

9. The Owners <sup>and</sup> <sub>or</sub> Master of a vessel shall—

- (a) supply warping and other necessary appliances;
- (b) secure hatches when not in use, and guard against accidents to life, limb, and property;
- (c) keep their vessels so loaded, <sup>and</sup> <sub>or</sub> ballasted as to allow of their safe removal in the event of fire or other emergency arising;
- (d) provide proper lights in those parts of a vessel where work is going on, <sup>and</sup> <sub>or</sub> when, owing to insufficient light, injury might result to life, limb, or property;
- (e) arrange that whilst a vessel is in Dock, or at the Jetties, the Master or some other responsible officer shall always be on board in charge to superintend and assist in carrying out all duties in connection with the vessel or its cargo, and that there is a sufficient crew to carry out orders issued by the servants of the Commissioners in charge;
- (f) see that all exhaust steam or water-pipes from winches or other machines are led down the side of the ship to below dock wall coping by a hose or other appliance.

10. The Owners <sup>and</sup> <sub>or</sub> Master of a vessel shall—

- (a) at the Docks securely fix the gangway supplied by the Commissioners during the whole time the vessel remains alongside the quay, and fix between sunset and sunrise one lantern at each end of a gangway so placed;
- (b) alongside any of the Jetties provide at least one gangway plank, not less than two feet six inches wide, and of sufficient length, thickness, and strength to form a convenient communication between the Jetty and the gangway of the vessel, and such gangway plank shall be properly and securely placed between the gangway of the vessel and the Jetty during the whole time the vessel remains alongside the Jetty.

11. A preferential use of cranes shall be given or the discharge of import cargo.

12. Heavy lifts of over 35 cwt. shall be declared by Masters of vessels, who shall be responsible for all accidents arising owing to mis-declaration of weights of such lifts.

Vessels carrying heavy lifts requiring the use of the 100-ton sheers shall be moved to the 100-ton sheers quay to make such lifts at such time as the quay is available.

13. No crane shall be hooked on to more than it is certified to lift by itself, and two cranes shall not be hooked on to one article. No crane shall be used to assist in lifting a weight, when such weight is being hoisted by the ship's own gear. Breaking out cargo with Dock or Jetty cranes is strictly prohibited.

14. Vessels requiring to carry out petty repairs may do so in the Wet Dock when a berth is available without detriment to ordinary traffic, but subject to the condition that a canvas-shoot or other safeguard be provided so as to prevent loose material, chips, pieces of wood or other like material falling into the water.

15. Every barge or cargo boat, if permitted to remain in the Dock more than 12 hours after having received or discharged her cargo, or 12 hours after she could have received or discharged such cargo, will be subjected to a charge, as under, for every day or part of a day while she shall so remain—

			Rs.	A.	P.
Cargo boat or barge up to 15 tons	...	...	1	0	0
Ditto above 15 and up to 25 tons	...	...	1	8	0
Ditto above 25 tons	...	...	2	0	0

16. No bum-boat will be allowed into the Dock without the special sanction of the Dock Superintendent, and any bum-boat may be removed from the Dock at any moment.

17. The control of barges, cargo-boats and bum-boats shall rest with the Dock Superintendent, who may prevent from entering, or turn out of the Dock any boat unless she is actually engaged for cargo, and no fires shall be allowed on them between 9 P.M. and 5 A.M.

18. Every cargo-boat, barge, or lum-boat may be searched, at the discretion of the Dock Superintendent, before leaving Dock, either by a Dock official deputed to do so, or by the Police.

19. No person shall open, or attempt to open or shut, any dock gate, sluice or valve, nor any swing-bridge without orders from a duly authorized servant of the Commissioners.

20. The gates of the Dock or Jetty premises shall be kept open at hours fixed by the Commissioners, and ingress and egress allowed as directed by the Dock or Jetty Superintendent.

21. No person, unless duly permitted by the Dock or Jetty Superintendent, shall take inside the Dock or Jetty premises carpenters' tools or other instruments for opening cases, and no cooper shall be allowed to work in the sheds without a license from the Dock or Jetty Superintendent.

• 22. Bells must not be struck to denote the hour on board ships in Dock.

23. No vicious or dangerous animals, and no loaded gun or other firearm, shall be kept on board any vessel in Dock or at the Jetties.

24. No vessel having on board more than 100 native passengers or coolies shall be allowed to enter the Wet Dock unless covered by a certificate from the Health Officer that no persons on board are suffering from infectious diseases.

25. Smoking and the use of any unprotected fire or lights in any shed or warehouse within the Dock or Jetty enclosure are strictly prohibited. No person shall smoke tobacco or other substance, or ignite lucifer matches or other inflammable articles, on any pier or quay or on board any vessel within the Dock, or at the Jetties, except in such places as may be allotted for the purpose.

26. Fires of coal, charcoal, or coke may be used in the cabins, deck-houses, forecables and cabooses of vessels in Dock, only between 5 o'clock A.M. and 9 o'clock P.M., subject to being prohibited (on any abuse) by the Dock Superintendent.

Fires for donkey engines, steam winches, and portable forges are also permitted during working hours and for ships' engines for a reasonable period before a ship leaves and after a vessel is berthed in the Dock.

All lights, whether oil-lamps or candles, used on board vessels in Dock, except as mentioned in the following paragraph, shall be in globes or secured lanterns.

Naked lights may be used only in the engines and boilers of vessels whilst under inspection and repair, or in duties connected therewith.

While any fire or light is lighted, at least one person on board is to be specially charged with the care thereof; and no fire or light is to be left or used in so rash, careless, or negligent a manner as to risk or endanger the safety of, or to ignite any goods, property, or vessel in the Dock or on the Dock premises.

All applications for special permission to use fires at any other than the prescribed hours shall be made in writing to the Dock Superintendent before 5 o'clock P.M., and shall specify the circumstances under which the request is made; if granted, the application, after having been endorsed by the Dock Superintendent, is to be retained on board by the person charged with the care of the fire, and is to be exhibited by him to the Dock and Police officials whenever demanded, and is to be returned to the Dock Superintendent by 10 A.M. on the following day.

27. Vessels in Dock and all parts thereof shall be held or made free and accessible to the Dock and Police officials for their inspection in regard to fires and lights whenever they demand it.

28. A vessel about to come into Dock is to be trimmed, if possible, on an even keel or two to three inches by stern or head and kept upright. Side and stern ports to be shut in.

29. A vessel entering the Dock with her water ballast tanks full, the tanks must be kept in that condition during her stay in Dock. Should, however, necessity arise to empty a tank, the same can only be done with the sanction of the Dock Master and under his supervision.

30. Water ballast tanks, while the vessel is in Dock, shall not be filled without the previous sanction of the Dock Master.

31. No coals, cargo or ballast to be shifted in any of the holds or bunkers after the vessel is blocked, without the special permission of the Dock Master. If done, it will be at the risk and responsibility of the Commander.

32. From the time that the Dock ropes are made fast to the ship till she is secured on the blocks, all duty on board is to cease in order that the crew may be available to trim the vessel, if required, by the Dock Master.

33. As soon as a ship is in Dock, the Commanding Officer will station his men to look on the tackles for putting the ship fair over the blocks, both forward and aft, and to assist in pulling up the shores.

34. As the safety of the ship depends on her prompt shoring, the most particular attention is requisite to the observance of the foregoing rule. No exertions of the Dock staff can effect this without the co-operation of the ship's crew.

35. Masters of vessels shall furnish special notice to the Commissioners before landing hazardous goods, e.g., saltpetre, acids, sulphur, matches, spirits of wine, kerosine oil, turpentine, pitch, tar, and petroleum, &c.

36. No person shall remove from the Dock or Jetties any goods other than those for which bills-of-lading, accompanied by Agent's or Master's delivery order, Customs bill-of-entry, and Dock or Jetty *challan* have been deposited with the Commissioners.

37. Every package, bale, or case sent for shipment at the Dock or the Jetties shall be entered in a cart ticket in the form prescribed, and no goods unaccompanied by this ticket will be allowed to pass into the Dock or Jetty enclosure. Every cart ticket shall contain the date, name of vessel on which the goods are to be shipped, the exporter's name, the marks, quantity, and description of articles shipped, and the current license number of the cart.

38. Working hours at the Dock or at the Jetties shall be as may be notified from time to time. Wharf rent will not be charged for the days observed as holidays by the Custom House, but goods can be received and delivered on such days on payment of Custom House fees.

39. Application to work at night or on Sundays or holidays must be made to the Commissioners, who, on production of the Custom House permission, will order all the necessary arrangements for the proper conduct of business. For work at night and on Sunday, and the holidays prescribed by the Commissioners, the extra rates fixed by the Commissioners from time to time must be paid.

40. The sanctioned holidays recognised by the Commissioners shall be—

	Days.
New Year's Day ... ..	1
Sri Panchami ... ..	1
Good Friday ... ..	1
Queen's Birthday ... ..	1
Durgá and Lúkhmi Pujás ... ..	12
Káli Pujá ... ..	1
Jagadhátri Pujá ... ..	1
Christmas ... ..	2
Total ... ..	20

41. No ashes, sweepings, or rubbish of any kind are to be landed on any part of the Dock or Jetty premises, except under such conditions as shall be approved by the Commissioners.

42. Except for the purpose of enabling Masters of vessels to take measurements or weightings of goods to be shipped on board their vessels, no goods shall be permitted to be stacked on the wharves beyond the time actually necessary to convey them away.

43. During the time it is actually necessary for goods in course of landing or shipping to remain on the wharves, such goods shall be piled in places assigned for the purpose by the Superintendents of the Wharves or their subordinates.

44. Boats shall not be moored or anchored at the wharves, in order that the owners of the goods brought in them may sell or barter.

45. Empty boats waiting to be hired, or having discharged goods, shall anchor in the stream, at least 150 feet off the wharves.

46. The hours for landing and shipping goods at the Inland Vessels Wharves shall be from 6 A.M. to 6 P.M., on all days, except Sundays and holidays authorised by the Commissioners; and no business shall be transacted on the wharves during the hours intervening between 6 P.M. and 6 A.M., nor on such Sundays and authorised holidays, except on payment of overtime or extra fees respectively.

47. When goods are to be landed or shipped inward or outward, authenticated *challans*, showing the descriptions and exact quantities of the goods shall be tendered to the cashier by applicants for the passes. On the data furnished in these *challans* the passes will be drawn up and the tolls levied. In the absence of such *challans*, or where reasonable doubts exist with regard to their genuineness or correctness, the calculation for levying the toll shall be based on the registered tonnage of the boats or vessels from which the goods are to be landed or on which they are to be shipped.

48. No unauthorised person shall lay hold of, or get into, or upon, any engine, carriage, or truck on the Commissioners' tramway.

49. No driver shall drive his engine over the Commissioners' tramway at a greater rate of speed than six miles an hour.

50. No person shall cross the Commissioners' tramway in front of an approaching engine, or between or under any vehicle standing or moving on the line.

51. No person shall remove or wilfully damage any lamp, engine, carriage, truck, fencing or any other property whatever belonging to the Commissioners.

52. No person shall place any obstruction upon the Commissioners' tramway.

53. No person shall walk along the Commissioners' tramway within the fencing.

54. No person shall allow cattle in his or her charge to trespass on the Commissioners' tramway, nor to cross the line except at the regular crossing.

55. No person shall smoke within any of the sheds and warehouses belonging to the Commissioners.

56. Any person committing an infringement of any of the foregoing bye-laws shall be liable to a fine not exceeding Rs. 500, and, when the breach is a continuing breach, to a further fine which may extend to Rs. 200 for every day after the first during which the breach continues.

The 23rd May 1893.

No. 40 Marine.—With reference to this Department notice of the 2nd November 1892, regarding the number of candidates to be admitted locally into the Bengal Pilot Service as leadsmen apprentices, it is hereby notified that the number of leadsmen apprentices to be locally appointed will probably be one only in the years 1894 and 1895. In 1896 there will probably be no appointment, and thereafter one appointment in each alternate year only.

## Notice under Rule 19, Section II, Part I.

NOTICE is hereby given that the lease of the land specified in the schedule hereunto annexed, and of which the plan is open to inspection at the Office of the Commissioner of the Sundarbans, has been applied for by Haromani Dasi, and will be sold at 12 o'clock noon on the 14th August 1893, Monday, the 30th Sraban, 1300 B.S., at the Sundarban Commissioner's Office at Alipur, unless meantime the sale is stopped or postponed in consequence of claims or objections under Act XXIII of 1883 (to provide for the adjudication of claims to waste lands) or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below as well as to the general terms annexed to the rules for the sale of leases of waste lands in the Sundarbans of the 24-Parganas, Khulna, and Backergunge, dated the 12th November 1879.

*Conditions.*

That the land shall be subject to all existing rights-of-way and water and other easements.

That the right of using all streams and channels in any way navigable shall be reserved to the public as also the use of a tow-path not less than 25 feet in width on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances or which may be used on the land. But for wood and timber exported for sale, a duty shall be levied at such rate and in such manner as may from time to time be prescribed by Government.

That the Government reserves to itself the right to all minerals on the land together with such rights-of-way and other reasonable facilities as may be requisite for working, getting, and carrying away such minerals. It also retains its proprietary right in the land, and only confers on the lessee an occupancy right which shall be hereditary and transferable.

## IRRIGATION.

*The 30th May 1893.*

**No. 143.—Notification.**—It is hereby notified for general information that the Lieutenant-Governor of Bengal is pleased, under the provisions of sections XI and XII of Act V (B.C.) of 1864, to pass the following rules in modification of those now in force in the Calcutta Canals and Tolly's Nala from 1st July 1893. A draft of these rules as proposed was published in this Department Notification No. 11, of the 17th January 1893, for a period of eight weeks in the *Calcutta Gazette* of the dates noted in the margin:—

18th and 25th January; 1st, 8th, 15th and 22nd February; and 1st, and 8th March 1893.

1.—Every vessel on entering the Calcutta Canals or Tolly's Nala shall be liable to measurement for the purpose of ascertaining the tolls payable; and in case of any reasonable doubt arising, the navigation officers at any toll-station shall have authority to measure a vessel notwithstanding that it was measured on entering the canals.

2.—The tonnage of every vessel, whether laden or empty, shall, for the purposes of Act V of 1864 (B.L.C.) and of these rules, be determined by the following measurements:—

A.—The product of quarter the length of the vessel from stem to stern, measured along the water line, multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the waterline to the bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

B.—The measurement of the length is to be made in feet, rejecting inches; the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting portions of less than a quarter of a foot in net depth.

C.—In calculating the amount of toll to be levied, any portion of 100 maunds less than 12½ maunds is to be omitted. In the case of boats exceeding 500 maunds by measurement, any fraction of 100 maunds less than 50 maunds is to be omitted, and exceeding 50 maunds is to be charged as 50 maunds only.

D.—Provided that in the case of vessels which entered the canals at Chitpore, Kidderpore, and Chetla empty for the purpose of loading therein, the depth shall be measured from the line of usual immersion as visible on the outside of the vessel to the bottom of the vessel, and not from the line of actual immersion at the time of measurement.

E.—In the case of steamers the tonnage, as determined by clauses A, B, and D, shall be reduced by one-third as an allowance for engine space.

3.—Every vessel entering the canals shall be furnished with a ticket on payment of the prescribed toll. The manjee's name, the date and hour of entry, the maundage of the vessel, the cargo it contains, and amount of toll charged, shall be entered in this ticket to identify the vessel on which toll has been paid.

4.—Every person in charge of a boat, raft, or float, who shall pass into the canal without tendering the toll due, or who shall pass out of the canal without surrendering the ticket received on entering and paying any tolls that may be due, shall be liable to be detained and punished according to section X of Act V of 1864.

5.—This ticket may be demanded and inspected by any navigation officer, and must be kept on board and at hand for that purpose.

6.—Persons in charge of boats entering the Calcutta Canals at Dhappa or Chitpur must procure a toll ticket and present it to the lock muharrir to be examined and stamped. This ticket must be given up at the exit lock on the boat leaving the canals. In the case of Tolly's Nullah a toll ticket must be obtained at the entrance and given up at the exit station.

7.—Every person in charge of a boat found in the canals (westward of the pass-station) with toll tickets unstamped or unsigned will be detained and treated as having no toll ticket under section X of Act V of 1864.

8.—The manjee or owner of every vessel not having a ticket on board and producible on demand shall be liable to the provisions of section X of the Canals Act.

9.—Duplicates of lost tickets, of which the numbers and dates of entry can be satisfactorily established, will be granted by the Collector on further payment of a sum equal to the original amount of toll.

10.—During the detention of any vessel under these rules, or under section IX of the Act, it will be the duty of navigation officers to see that neither the vessel nor its cargo is clandestinely removed; but they are in no way responsible for the safety of the boat or its cargo, for which the manjee, owner, or agent must make their own arrangements.

11.—The purchaser of a vessel sold under these rules, and under the Act, will have the option of taking it out of the canal on the day of purchase, or of taking out a fresh toll ticket at the rate fixed by the Schedule of Tolls in force for the time being.

12.—No boat engaged by any officer of Government, whether civil or military, shall be exempt from toll, on the ground that the officer is travelling on public duty. Exceptions to this rule are allowed in the case of certain vessels and officers under the special sanction of the Lieutenant-Governor.

13.—Any vessel remaining in the canals more than two months without authority from the Supervisor shall be summarily removed.

14.—Boats requiring repairs shall be allowed to enter Dhappa Docks and remain there for a maximum period of thirty days, during which they will be charged at the rate of one-sixth part of the demurrage ordinarily payable. Any boat remaining in the docks longer than thirty days without the special permission of the Supervisor shall pay demurrage at the full rate for such excess period.

15.—No vessel shall be docked for repairs on the banks of the Calcutta Canals or of Tolly's Nala.

16.—Wherever mooring posts may have been put up by the Supervisor, vessels shall be made fast by the head and stern along the banks to such posts, and shall not be moored in any other manner.

17.—The Supervisor may by notification prohibit the dropping of anchors or the putting up of bamboos or luggies in any part of the canals or on the banks; and in such parts no anchors shall be dropped, or luggies put up, under a penalty of fifty rupees, and of a fine not exceeding four rupees a day for continued disobedience of an order for removal issued by the Supervisor.

18.—Boats whilst loading or unloading in the canals will be allowed to use ladders; but the ladders must be gradually taken in as the water rises.

19.—As the water falls, the head and stern ropes must be loosened, and boats gradually pushed towards the centre of the canal: when the flood comes in, these two ropes must be gradually pulled in, and the boat kept as close to the bank as possible.

20.—Only one boat shall be allowed to make fast along and in line with the canal banks, and no boat shall be made fast or be placed outside of boats so secured. No boat or raft shall be placed in such a position as to endanger the safety of other boats or obstruct the passage of other boats.

21.—Boats passing through the canals shall keep in separate lines, empty boats keeping close to the bank and those that are laden in the centre.

22.—Hackeries, carts, bullocks, &c., using the canal roads shall, when stationary, be ranged on the side of the road farthest from the canal bank.

23.—In portions of the canals where only one towing-path exists, vessels shall moor on the off side, and the towing-path side shall always be kept clear.

24.—No persons shall place obstructions on the canal banks, roads, drains, or bridges (when such are on canal land), so as to impede a free passage along them or cause injury to them, or shall commit a nuisance, or deposit filth of any sort on the banks or in the canals.

25.—Any vessel, vehicle, or any other thing that may cause an obstruction to navigation, or to the banks, roads, drains, and bridges, or injury to the same, will be liable

to be immediately removed and detained till all expenses incurred on account of removal, demands, and fines are paid. If a charge be not paid within ten days from date of detention, the said vessel, vehicle, or other thing will be sold to defray expenses.

26.—No artificial fire or light of any description shall be used on boats containing petroleum, jute, hay, or straw whilst in the Calcutta Canals or lock basins.

27.—Whoever personally or by his or her servant infringes the provisions of any of the foregoing rules numbered 15 to 26 inclusive, shall be liable, under section XI, Act V of 1864 (B.C.), to a fine not exceeding Rs. 50 for any one such infringement, or to a fine not exceeding Rs. 5 a day for a continued infringement.

28.—At the instance of the Collector of Tolls, any Magistrate who imposes a fine under section XI or XVI of the Act may award any portion of such fine to the informer.

29.—Any person who wilfully or negligently allows a vessel to sink in the canals shall be liable to a fine not exceeding Rs. 50.

30.—In every case of wreck caused by negligence or otherwise, the Supervisor and his subordinates will give every assistance in removing the same.

31.—A notice shall be affixed on such wreck when recovered, calling on those concerned to pay to the Collector all which may be due, or fine which may have been adjudged, as well as the expenses incurred in the recovery or removal of the wreck; and intimating that, if the sum be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold, the proceeds of the sale being dealt with as directed in section IX of the Act.

32.—Every navigation officer is authorized to remove any vessel, anchor, pole, or other thing which he may find in a position which is in contravention of these rules, and to deal with it in such a manner as may be necessary to give effect to the rules.

33.—Whenever any laden vessel is seized by a navigation officer, it shall be the duty of the Supervisor to give immediate notice of the same to the owner or his agent, requiring the removal of the cargo without delay, and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the same.

34.—If the Supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of any vessel or boat seized under the Canals Act, he shall notify the seizure by a notice exhibited in his office, and by advertisement in one or more of the Calcutta newspapers. Such notice and advertisement shall call upon the owner to cause the immediate removal of the cargo, and to pay any necessary expenses incurred in providing for its proper custody and storage.

35.—The Supervisor may incur whatever expense he may think necessary for the proper custody and storage of the cargo of any vessel seized under the Canals Act; and if the cargo be not removed within ten days from the date of seizure, he may sell the same at public auction to the highest bidder, after giving ten days' notice of the same by advertisement in one or more Calcutta newspapers and by a notice exhibited in his office.

36.—The money realized at such a sale shall be applied first to defray any expenditure that may have been incurred by the Supervisor on account of the cargo sold, and the balance, if any, shall be held in deposit to be paid to the owner of the said cargo on his applying for the same.

37.—No steamers are allowed to enter the Calcutta Canals without permission of the Supervisor at Chitpore or Canal Inspector at Dhappa. Steamers are not allowed to tow flats or cargo boats in the Circular Canal, but may tow one flat at a time in the New Canal. Any one infringing this rule is liable to a fine of Rs. 50.

38.—The term "navigation officer" as used in the foregoing rules shall include the persons alluded to in section VIII of the "Canals Act, 1864," and all Public Works Officers or Subordinates in charge of the canals not below the grade of Sub-Overseer.

No. 144.—*Notification*.—In supersession of the rates of tolls fixed by Notification No. 286, dated 2nd August 1886, published at page 906, Part I of the *Calcutta Gazette* of the 4th August 1886, the Lieutenant-Governor of Bengal is pleased, under sections VI and XI of Act V (B.C.) of 1864, to fix the following revised rates of tolls to be levied, on and after the 1st July 1893, on the Calcutta Canals as defined below and Tolly's nala. A draft of these rates

18th and 25th January; 1st, 8th, 15th and 22nd February; and 1st and 8th March 1893.

as proposed was published in this Department Notification No. 12, of the 17th January 1893, for a period of eight weeks in the *Calcutta Gazette* of the dates noted in the margin:—

I.—The Circular Canal, comprising the whole of the still-water canal between the Dhappa and Chitpore Locks, together with its junction with the river Hooghly and the Orange Soorah at Dhappa.

II.—The Central Lake Channel from its junction with the Calcutta Canals at the Dhappa Lock to its junction with the Biddiadharcce river at Bamunghatta.

III.—The Nowbhangha Khal, extending northwards for a mile from its junction with the Central Lake Channel below the Dhappa Lock.

IV.—The Soorah from its junction with the Central Lake Channel below the Dhappa Lock, and extending to the fish market situated adjacent to, and to the west of the Dhappa Inspector's residence.

V.—Tolly's Nala, extending from a line drawn across the nala 25 feet west of the Hastings bridge at Kidderpore to the Biddiadharee river at Samookpotta.

## Subordinate Educational Service.

The 24th May 1893.—In supersession of the orders of the 29th March 1893, the leave of absence for two months and fourteen days, under Article 306(b) of the Civil Service Regulations, which was granted to Babu Priya Nath Ray, B.A., Head Master of the Chaibassa Zilla School (class VI), took effect from the afternoon of the 18th February 1893.

Babu Priya Nath Ray, B.A., Head Master of the Chaibassa Zilla School (class VI), having returned to duty on the forenoon of the 21st April 1893, the unexpired portion of the leave granted to him under the orders of the 29th March last, and subsequent memorandum dated 24th May, is cancelled.

C. A. MARTIN,  
Offg. Director of Public Instruction, Bengal.

## Orders by the Vice-Chancellor and Syndicate of the Calcutta University.

(i) The following revised Rules for the Affiliation of Colleges and the Recognition of Schools passed by the Senate have been approved by His Excellency the Governor-General of India in Council:—

*Rules for the Affiliation of Colleges.*

1. Institutions or departments of Institutions may be affiliated in Arts or Department of Arts, Law, Medicine, and Engineering.

2. The power of affiliation rests, under the sanction of the Governor-General of India in Council, with the Syndicate, to whom all applications for affiliation must be addressed through the Registrar.

3. In the case of a Government Institution, application must be made by the Director of Public Instruction, or other chief educational officer of the province in which the Institution is situated.

In the case of any other Institution, application must be made by the chief controlling authority of such Institution.

4. Every application must be countersigned by two Members of the Senate, and if thought necessary, in the case of distant Institutions, by the Secretary to the Government of the province in which the Institution is situated.

5. The application must contain the following information:—

- (a) The constitution of the managing body, and the names of its members;
- (b) The standard up to which the Institution is to be affiliated;
- (c) A statement of the probable income of the Institution, and of the sources from which it is derived.
- (d) The proposed scale of establishment, and the names of the members of the teaching staff.
- (e) The scale of fees to be charged.

6. The Syndicate may call for any further information, and may, if considered necessary, require the managers to furnish satisfactory guarantees that the Institution will be maintained on the proposed scale for five years.

7. Before recommending for affiliation an Institution in the neighbourhood of another Institution already affiliated, it shall be the duty of the Syndicate to enquire whether the establishment of the new Institution is likely to be detrimental to the interests of sound education and discipline.

8. An Institution shall be affiliated in the first instance for five years only, after which the affiliation may be renewed. The application for renewal must contain the same particulars as the original application, and must be submitted six months before the expiry of the period of affiliation.

9. In the month of July of each year the Principal of every affiliated Institution shall submit a report to the Syndicate, showing the staff maintained throughout the preceding year, and giving the names of all members of the staff at the time of submitting the report.

10. The Syndicate may, with the sanction of the Governor-General of India in Council, at any time withdraw the privileges of affiliation from any Institution.

#### *Rules for the Recognition of Schools.*

1. Before any school is allowed to send up candidates to the Entrance Examination, it must be recognised by the Syndicate as a High School. Applications for the recognition of schools must be addressed to the Syndicate through the Registrar.

2. In the case of a Government school, application must be made by the Inspector of Schools, or other chief educational authority of the division in which the school is situated.

In the case of any other school, application must be made by the chief controlling authority of the school.

3. The application must contain—

- (a) The constitution of the managing body and the names of its members.
- (b) A statement of the probable income of the school, and of the sources from which it is derived.
- (c) The proposed scale of establishment, and the names of the teachers.
- (d) The scale of fees to be charged.
- (e) An assurance that no teacher will be allowed to teach more than 50 scholars at the same time.

4. The Syndicate may call for any further information, including information as to the situation and sanitary condition of the school, and suitability of the rooms used as class-rooms, and may, if considered necessary, require the managers to furnish satisfactory guarantees that the school will be maintained on the proposed scale for five years.

5. It shall be in the power of the Syndicate to refuse to recognise any school unless it is certified by a Government Inspector of Schools as having been in existence since the 1st of July next preceding the examination, and as qualified to teach up to the Entrance standard.

6. A school shall be recognised in the first instance for five years only, after which the recognition may be renewed. The application for renewal must contain the same particulars as the original application, and must be submitted six months before the expiry of the period of recognition.

7. The Syndicate may refuse to recognise any school that appears to be from any cause injurious to the interests of sound education and discipline, and may cease to recognise any school that shows year after year bad result.

*The above Rules are applicable to Colleges and Schools already affiliated to and recognised by the University.*

(i) The following change in the Regulations for the Entrance Examination has been passed by the Senate and approved by His Excellency the Governor-General in Council:—

The word "and" has been omitted in line 1 of page 75 of the University Calendar for 1892, and the following words have been added to line 2 of the same page:—

"and that I believe the subjoined account to be true."

(ii) The following dates have been fixed for holding the Entrance, F. A., and B. A. examinations of 1894:—

Entrance—Monday, the 12th February 1894, and following days.

F. A. and B. A.—Monday, the 20th February 1894, and following days.

### LIBERALITY OF THE MAHARAJA OF CHOTA NAGPUR.

No. 49T.M., dated Darjeeling, the 5th May 1893.

From—J. A. BOURDILLON, Esq., Offg. Secretary to the Government of Bengal, Municipal Department,

To—The Commissioner of the Chota Nagpur Division.

I AM directed to acknowledge the receipt of your letter No. 8M., dated the 17th April 1893, with which you forward a copy of a letter from the Honorary Secretary to the Dufferin Fund Committee, Ranchi Branch, reporting that the Maharaja of Chota Nagpur has made a donation of Rs. 2,000 to the Fund on the occasion of the recent visit of His Honour the Lieutenant-Governor to Chota Nagpur. The amount is intended to defray part of the cost of building a zenana hospital to be attached to the Charitable Dispensary at Ranchi.

2. In reply, I am directed to say that the Lieutenant-Governor accepts the donation, and to request that you will be so good as to convey to the donor an expression of His Honour's thanks for his liberality and public spirit. This letter will be published in the *Calcutta Gazette*.

	26 Jalpaiguri „ 6, '93	1.91	Weather—cloudy and rainy with occasional breaks. Untimely rain has impeded the growth of jute and <i>bhadoi</i> cultivation. Price of rice unchanged. Fodder and water sufficient. No cattle-disease reported.

No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.	
BIHAR.				
BRAGALPUR DIV.	27	Monghyr May 6, '93 Begusarai ... Jamui ...	1.70 0.97 1.65	Weather—cloudy with occasional showers of rain; cool during the week. Lands being ploughed for <i>bhadai</i> . <i>Cheena</i> almost ripe. Prices of coarse rice:— Srs. Sadar ... 13 to 15 } Begusarai ... 14 } per rupee. Jamui ... 12½ }
	28	Dhugalpur .. 6, '93 Madhipura ... Supaul ...	2.75 0.42 1.53	Weather—cool; cloudy and heavy showers. The heavy rain in the Sadar sub-division has done damage to the grain and wheat still lying on the threshing-floor, otherwise prospects are favourable.
	29	Purnea .. 6, '93 Kishauganj ... Araria ...	0.88 1.85 1.74	Weather—cloudy and remarkably cold for the season. <i>Bhadai</i> , jute and <i>aghani</i> sowings in progress. Seeds germinating well. The heavy rain has been beneficial, but no more is required. Fodder and water plentiful. Prices stationary.
	30	Malda .. 6, '93 Chanchal ... Shibganj ... Gajole ...	1.63 1.33 2.69 3.69	Weather—cool and cloudy throughout the week. Threshing of <i>rahi</i> crops drawing to a close. Rain has benefited the <i>bhadai</i> crops already sown. Prospect of <i>boro</i> rice continues favourable. It is being reaped in some places. Price of coarse rice varies from 11 to 15 seers per rupee. No want of fodder or drinking water.
	31	Sonthal Parganas .. 6, '93 Deoghur ... Gedda ... Jamtara ... Pakur ... Rajmahal ...	* 1.05 1.50 1.88 2.73 2.64	Weather—cloudy and cool with storms. A severe thunderstorm with strong wind, rain and hail on the 3rd instant. The storms have damaged the mango crop. <i>Boro</i> paddy in Rajmahal is doing well. Prices much the same. Fodder and water plentiful.
	32	Patna .. 6, '93 Barh ... Dinapore ...	1.13 1.16 0.55	Weather—unseasonable; cloudy. Recent rain expected to do harm to the crops not yet brought home. Threshing still going on. Sugarcane and millets doing well. Opium weighment about to be finished. Prices of food-grains generally stationary. Common rice sells at:— Srs. Sadar ... 15½ } Barh ... 11½ } per rupee. Dinapore ... 15 }
	33	Gaya .. 6, '93 Nawada ... Jehanabad ... Aurangabad ...	0.76 0.58 0.70 Nil	Weather—cloudy and unsettled with several thunderstorms. The rain has done much good to the young sugarcane, but damaged what <i>rahi</i> crops are lying on the threshing-floors. Prices remain about the same. Fodder and water-supply sufficient.
	34	Shahabad .. 6, '93 Buxar ...	2.07 0.21	Weather—unsettled; frequent storms with rain from the north-west. The rainfall in the north has benefited the sugarcane, millet and Indian-corn, but great damage has been done to the mango crop, which will be a failure throughout the district.
	35	Darbhanga .. 6, '93 Madhubani ... Samastipur ...	3.08 1.93 1.01	Weather—occasionally cloudy and stormy. Heavy rain at head-quarters on the 4th instant. The rainfall of the week has greatly benefited the paddy, <i>mung</i> and indigo crops. It has also enabled the cultivators to proceed with the cultivation for <i>bhadai</i> crops. Mango crop is reported to have been slightly damaged by hail. Fodder for cattle sufficient. Prices almost stationary.
	36	Muzaffarpur .. 6, '93 Sitamarhi ...	1.04 1.39	Weather—unsettled and cloudy. <i>Marua</i> , <i>cheena</i> , <i>kado</i> , paddy and <i>makai</i> on low lands being sown. The rainfall has facilitated the preparation of lands for the <i>bhadai</i> and rice sowings. No disease among cattle. Fodder and water sufficient.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore .003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0.2 lower; and, finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0.6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

\* Mean of 6 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period. The humidity of the atmosphere is expressed as percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 101. The normal mean or the numerical mean or average of the rainfall in that district determined from the returns sent in by the subdivisional stations district, &c., from total rainfall at the subdivisional stations in the district sending in returns divided by the number of stations. A rainy day is one at

for the week ending Saturday, the 6th of May 1893.

Explanation.—... indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding space in the total rainfall column is left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 3.1 inch of rain has fallen.

CALCUTTA, the 9th May 1893.

**SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS  
TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY,  
THE 6TH MAY 1893.**

UNSETTLED weather, with local showers more or less heavy, has prevailed in most districts during the past week. The heavier rainfall has been irregularly distributed except in East and North Bengal, where it has been of almost daily occurrence. This rainfall appears to be due to the continuance for many days of the easterly winds, which were caused in the early part of the week by the low pressure over the western districts, and latterly by the unusual way in which the pressure recovered from the large defect which then prevailed. On the 1st of May it began to rise in North Bengal, and from there a wave of rising pressure spread towards the south-west. The rise was rapid on the 2nd in all the western districts of Bengal and as far south as Ganjam. On the 3rd the most rapid rise was in the Circars, while over the west of the Bay the increase was from brisk to rapid. In consequence of these changes the area of lowest pressure retreated southwards, and as gradients were moderately steep and ran from south-east to north-west, the circulation of winds was everywhere easterly. During the latter part of the week a fall set in from the west, and the low pressure area continued to the south-west of the province till the last day of the week, when it was shown over Lower Bengal. Westerly winds then prevailed as far north as Hazaribagh, and it seemed likely that more settled conditions were in rear of the depression. On Thursday the 4th the heaviest rainfall was in South-West Bengal, on the 5th it was light and scattered, and on the 6th, the last day of the week, it was most heavy in East Bengal.

*Pressure.*—The mean readings for the whole week differ very little from the normal, but the changes have been fairly large. At the beginning of the week there was defect everywhere, varying from  $1^{\circ}$  in the eastern districts to  $17^{\circ}$  in the west of Bihar. The rise that commenced on the 1st in North Bengal and spread southwards and westwards continued till the 4th, when the distribution was above the normal by about  $0.5^{\circ}$ . The fall which then set in continued till the end of the week, when readings were relatively to the normal lowest in East Bengal and Assam.

*Temperature.*—Has again been several degrees below the normal. At first the lowest readings were in East Bengal, where defect was more than  $5^{\circ}$ , while in the other districts it was about  $3^{\circ}$  except in Orissa, where there was a small excess. Large irregular changes followed the thunderstorms, and by the middle of the week the lowest temperatures were in Chota Nagpur. The defect there increased, and very low readings became general in all the western districts. The weekly means for the larger divisions are all below the normal by amounts varying from  $1.1^{\circ}$  in Orissa to  $5.3^{\circ}$  in Chota Nagpur. The defect in Bihar and South-West Bengal is about  $3.5^{\circ}$ , and in the eastern districts  $2.5^{\circ}$ .

*Rainfall.*—Scattered showers have fallen throughout the week, but in some districts, especially on Saturday, the 30th April, and Thursday, the 4th of May, the falls were much more general and more heavy. The days when the rainfall was most scattered were Tuesday the 2nd and Saturday the 6th in all districts. The mean falls for the large divisions are all very much above the normal for the week, and excess varies from  $.42$  inch in Chota Nagpur to  $3.95$  inches in East Bengal. If the actual falls be expressed as a percentage of the normal, the numbers are—South Bihar 525, Orissa 300, Chota Nagpur and North Bihar 250, East Bengal 273, North Bengal 186, and South-West Bengal 158.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 6th of April 1893:—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Alipore Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed at the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; d, drizzling rain; p, passing temporary showers.

	Ranaghat ...	2.12	
	9 Khulna „ 13, '93	0.97	Weather—stormy in the early part of the week, since bright and hot. Land is
	Bagerhat ...	3.41	being prepared for <i>aman</i> and <i>aus</i> and jute are being sown. Sowings retarded
	Satkhira ...	2.08	in Satkhira by excessive rain. <i>Boro</i> harvest continues. Common rice sells
			at Sadar and Bagerhat 13 seers per rupee and at Satkhira 10 seers 10
			chitaks per rupee. Fodder and water for cattle sufficient.
PRESIDENCY DIV.	10 Jessore „ 13, '93	2.50	Weather—cloudy and rainy with occasional storms. Sowings in low lands have
	Jhenida ...	2.78	been retarded by the heavy rainfall of the week. No more rain is wanted for
	Magura ...	1.96	the present. <i>Sil</i> and jute promising. Cattle-disease reported from parts of
	Nailail ...	1.47	Bangaon and Magura. Fodder and water sufficient except in parts in
	Bangaon ...	1.20	thana Saroba.
	11 Murshidabad „ 13, '93	1.13	Weather—seasonable. Prospects of mulberry, indigo and sugarcane good. <i>Aus</i>
			and <i>aman</i> paddy being sown. Fodder available for cattle. Common rice
			sells at 12 seers per rupee.

No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL—conold.			
CHITTAGONG DIVN.	12 Chittagong May 13, '93	1.51	Weather—seasonable. Prospects of crops good. <i>Aus</i> cultivation going on. Prices stationary. Condition of cattle generally good. Supply of fodder sufficient.
	13 Noakhali „ 13, '93	0.39	Weather—hot with occasional rain. <i>Rabi</i> crops on the ground greatly damaged. Sowing of <i>aus</i> recommenced after the late heavy rain. No cattle-disease. Fodder and water ample. Price of rice shows a slight tendency to rise.
	14 Tippera „ 13, '93	1.95	Weather—hot with bright sun, alternating with cool stormy weather and rain. State of standing crops fair. Harvesting of <i>boro dhan</i> almost completed. Crops on low lands damaged by late heavy rain. Prices of rice unusually high.
	15 Chittagong Hill Tracts. „ 12, '93	5.97	Weather—cloudy and rainy in the first part of the week; sunny in the latter part. Vegetables doing well. <i>Jum</i> harvesting having been retarded by early fall of rain is not yet over. Paddy, cotton and other seed grains are being sown in <i>jums</i> in some places. No cattle-disease reported. Common rice being sold at 10 seers per rupee.
DACCA DIVN.	16 Dacca „ 13, '93	1.04	Weather—seasonable. Harvesting of <i>chenna</i> , <i>kaon</i> and <i>boro</i> paddy nearly completed. Jute and rice plants doing well, but are being slightly damaged owing to heavy rainfall. Sowing and ploughing going on. The recent heavy rain interfered with cultivation of low-lying lands to some extent. Fodder available. No cattle-disease. Common rice selling at from 10 to 12 seers per rupee.
	17 Faridpur „ 13 '93	0.73	Weather—seasonable. Crops sown doing well generally. The late heavy rain has prevented sowing, but the high lands will probably all be sown, whereas perhaps one-third of the low lands will not be sown at all. Some damage has also been done to the young paddy in places by the rain, and considerable harm done to the <i>til</i> . Common rice sells at from 11 to 12 seers per rupee. Some cattle-disease still in two thanas; otherwise cattle doing well and fodder available.
	18 Backergunge „ 13, '93	2.72	Weather—cool. Thunderstorm with heavy rain in places. Prospects fair. The heavy rain has damaged the <i>aus</i> plants to some extent on low-lying lands. Cultivation has been but little interfered with. Common rice selling at from 9 to 13 seers per rupee. Fodder and water sufficient.
	19 Mymensingh „ 13, '93	1.59	Weather—fairly cool and cloudy for the greater portion of the week. Heavy rain all over the district. State and prospects of crops good. The recent heavy rains as far as has been ascertained has not interfered with the cultivation of low-lying rice lands. Common rice selling at from 11 to 14 seers per rupee. Health of cattle good. Supply of water and fodder sufficient.
RAJSHAHI DIVN.	20 Dinajpur „ 13, '93	0.85	Weather—hot and occasionally cloudy. Standing crops doing well. Sugarcane has been sown to the extent of 16 aunas. No more rain wanted for a few days. Prices of rice both at Sadar and Thakurgaon continue unchanged. Condition of cattle good. Fodder and drinking water sufficient.
	21 Rajshahi „ 13, '93	1.11	Weather—showery and hot. Prospects of all standing crops good. The rain, which has been heavy for the time of the year, has not done any appreciable harm. There is no cattle-disease. Fodder and water are plentiful. Price of rice varies from 11 to 14 seers per rupee.
	22 Rangpur „ 13, '93	0.52	Weather—fine and warm. <i>Aus</i> paddy and jute doing well. Common rice 11 to 13 seers per rupee.

	Shsrpur „ „	3.70	
SILIGURI DIVN.	24 Pabna „ 13, '93	0.91	Weather—seasonable with rain almost every day. The incessant rain has retarded sowings on low lands and made weeding of grass difficult on high lands. Price of rice at Sirajganj Rs. 3-12 to Rs. 5-8 per maund, and at Pabna 12 seers per rupee. Water-supply and fodder sufficient.
	25 Darjeeling „ 13, '93	1.14	Weather—fine and clear mornings; in afternoons sky cloudy and occasional showers. <i>In the hills</i> :—Barley and wheat in some places being harvested. Potatoes, <i>kangni</i> , <i>bhadoi</i> , <i>marua</i> and <i>bhutta</i> progressing favourably. <i>In the terai</i> :—Jute and <i>bhadoi</i> coming up. Prices of coarse rice—
	Siliguri „ „	2.29	
	26 Jalpaiguri „ 13, '93	0.97	Weather—hot. The fair weather during the week improved the condition of jute and sowing of <i>bhadoi</i> . Common rice sells at 13 seers per rupee. Fodder and water-supply good.

SUPPLEMENT TO THE CALCUTTA GAZETTE, MAY 17, 1893.

**in Bengal in April 1893—concluded.**

[illegible]

# SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF APRIL 1893.

DURING the early part of April there was very little worthy of remark in the general weather conditions beyond the continued low temperatures, especially during the day, when compared with the averages for past years. Pressure distribution never differed very largely from the normal, and underwent the ordinary small oscillations usual in settled weather. On one or two occasions between the 1st and the 15th, the weather became slightly disturbed owing to the passage of shallow depressions across the Province, but the rain, which fell at these times, was very local and chiefly confined to the northern districts. These periods of slight disturbance were from the 5th to the 7th, when rain fell in North Bengal and parts of South-West and East Bengal, and again on the 10th and 11th, when, as before, practically no rain fell in Orissa, Chota Nagpur and Bihar, but showers were well distributed in the other districts. During this early part of the month day readings of the thermometers were steadily below the normal by several degrees, while at night, though the air was cooler than usual, the difference was usually much smaller than by day.

After the 15th, until towards the end of the month, fine cloudless weather prevailed, but the pressure distribution underwent considerable modification, and there resulted an arrangement which in all probability intensified the disturbance which afterwards became general over the province and continued for some time. Temperature rose above the normal both by day and night, but the excess in minimum readings was considerably the greater, and the wind circulation underwent a change, which became an important feature of the weather condition for days afterwards. Owing to the low pressure in Central India, the area of lowest readings in Bengal was in the south-west corner, and the wind circulation due to this arrangement became easterly in all districts.

About the 23rd a depression formed in the north-west of India, and began moving in an easterly direction, while on the 25th a small cyclonic storm developed in the Andaman Sea, and moving over Burmah caused stormy weather in the east of the Bay and heavy rainfall in Burmah. The centre of the cyclonic disturbance passed over Rangoon on the 27th, and on that day the depression from the north-west was beginning to affect the weather in the extreme west of the Province. On the following day there was a rapid rise of pressure in the east of the Bay and a rapid fall in the western districts of Bengal, so that gradients from being very slight in the north of the Bay, became in a short time much steeper than is usual at the end of April. In consequence of these steeper gradients strong moisture-laden winds blew in all districts and general rain fell, except in Orissa and part of South-West Bengal, up till the end of the month.

*Pressure.*—Though the mean pressures for the month differ from the normal by a few thousandths of an inch only, large changes have occurred at times, and the distribution has been considerably above and below the normal. During the first half of the month readings were steadily in excess, the greatest difference occurring on the 10th and 11th, when it was more than .2 inch in the north of the Province, and somewhat less elsewhere. After the 11th pressure steadily fell. By the 15th the distribution was practically normal, and by the 18th there was defect ranging from .1 inch in Orissa to .2 inch in Assam. These relatively low readings continued till the 23rd, when a rapid rise was general, and the distribution was again above the normal; but from the 25th large oscillations were caused by the two disturbances, one in the east of the Bay, and the other in the western districts of Bengal.

The changes on the 27th, when the storm was passing over Lower Burmah, varied from a rise of .05 inch in the west of Bihar to a fall of .176 inch at Rangoon; and on the 28th, when pressure was rising in Burmah, changes varied from a rise of .157 inch at Rangoon to a fall of .177 inch at Arrah. Defect then ranged from .13 inch in the south of the Bay to .25 inch at Dehri.

*Temperature.*—Was generally below the normal during the early part of the month. The difference from the normal by day was greater than by night, and even when, towards the middle of the month, a general rise prevailed, the day readings continued relatively lower. During the last week unsettled conditions prevailed with numerous thunderstorms in all districts, and cool weather again became general. The means for the larger divisions are all below the normal. Defect is under 1° in Bihar only, and in the other divisions varies from 1.6° in Assam to 2.4° in Chota Nagpur.

*Rainfall.*—As stated above, scattered showers fell about the 5th, and again on the 10th and 11th, after which there was very little rain till the 22nd, when the unsettled weather, which prevailed during the last week, commenced. During the first week rainfall was practically normal, during the second and third it was much below the normal; but the heavy falls during the last week brought up the total fall for the month to above the normal in all districts except Orissa. The largest excess was 2.74 inches in North Bengal. In East Bengal excess was 1.99 inches, in North Bihar .85 inch, South Bihar .59 inch, South-west Bengal .32 inch, and Chota Nagpur .23 inch. The heaviest falls were at Gnatong, Sibsaagar, Silohar, Faridpur, Dhabri, Rangpur, Mymensingh, Noakhali, and Dacca, all of which places received more than 5 inches.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the month of April 1893:—

\* Means of 5 days. † Mean of 6 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetic average or means of the readings during the same period. The humidity of the atmosphere is expressed as percentage, saturated air being denoted by 100. A clear sky is denoted by 0 and an overcast sky by 100. The rainfall the normal mean are the numerical means or averages of the rainfall in that district determined from the returns sent to by the subdivisional stations. The rainfall, &c., from total rainfall at the subdivisional stations in the district, ending in returns divided by the number of seasons. A rainy day is one of

for the week ending Saturday, the 13th of May 1893.

Explanation.—... indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the columns of rainy days, the definition of a rainy day is when at 10.1 inch of rain has fallen.

CALCUTTA, the 16th May 1893.

# SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 13TH MAY 1893.

AFTER a very short period of more settled weather at the end of the previous week, the approach of a depression from the west had begun to cause easterly winds in all districts and numerous thunder showers in the western half of the province.

This unsettled weather was most pronounced on the first day of the week under review, that is, on Sunday the 7th, when following a very rapid fall of pressure in the western districts, thunderstorms became more than usually numerous and severe. The severity of these storms, apart from the strength of the wind, of which there is no record for the short interval the storm lasts, was shown partly by the heavy rain, but more by the occurrence of hail. The fall of hail during a thunderstorm is a not unusual feature in the cooler month of March, but it is very unusual in May when, owing to the high temperature of the air, the hail is melted probably long before reaching the ground. The rapid fall of pressure on the 7th was followed by an even more rapid rise on the 8th. The low pressure area over Bengal completely disappeared, but as the rise commenced in the north and spread southwards, the area of lowest pressure retreated southwards. In consequence of this southward displacement of the area of lowest pressure, the easterly circulation of winds continued, and though pressure in Bengal was soon very much above the normal, thunderstorms with rain continued to occur not unfrequently over almost the whole of Bengal. A further consequence of the rapid rise of pressure was the great uniformity in the distribution not only over Bengal, but also in the Bay. Winds became very light, the skies were clearer and temperature began to rise steadily. The large defect in temperature which followed the heavy rainfall in the western districts underwent very little change till the middle of the week. During the last three days it diminished considerably, and by the end of the week was under  $2^{\circ}$  at nearly all stations except in Chota Nagpur and Orissa, while in the eastern districts and Assam there was excess of about  $2^{\circ}$ .

**Pressure**—Fell rapidly on the 7th, rose rapidly on the 8th, and more slowly on the 9th, when there was excess varying from  $\cdot 05$  inch in the east of the province to nearly  $\cdot 2$  inch in the west of Bihar. A fall then set in and continued till the 12th. The distribution resulting from these changes was practically normal. At the end of the week it was again rising. Mean pressure for the week is consequently considerably above the normal.

**Temperature**—Was unusually low at the beginning of the week, especially in the western districts. On the 8th defect was over  $10^{\circ}$  in South Bihar and part of South-West Bengal, and was between  $5^{\circ}$  and  $10^{\circ}$  in almost all the other districts. These low temperatures continued for some days, but during the latter half of the week the difference from the normal was steadily diminishing in the west of the province, while in East Bengal, North Bengal and Assam, readings had become one or two degrees in excess. The means for the large divisions are all much below the normal except for Assam. Defect varies from  $2^{\circ}6$  in East Bengal to  $6^{\circ}$  in Chota Nagpur and South Bihar.

**Rainfall**.—In the early part of the week rainfall was general and heavy in the western districts, and scattered showers fell in all districts practically throughout the week. The average falls in Orissa, South-West Bengal, Chota Nagpur, and South Bihar are all much above the normal, while in North Bihar, North Bengal and East Bengal, there is a considerable defect. Weather in these last three districts was not so disturbed, while the depression existed over the west of the province on the first day of the week, and owing to the rapid rise of pressure in the north, the eastward motion of the low pressure area was checked, and the rainfall became more scattered.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 13th of May 1893:—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All thermometers are verified and the readings have been corrected to a standard constructed and verified at Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed at the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

## INCREASES.

	Tons.
Coal ... ..	10,173
For railway and Mollia consumption and for brick burning. Part of the increase is due to Brace Bridge Hall consignments.	
Jute, screwed ... ..	2,603
Saidpur, Rangpur, Lalmuir Hat, Postgoloh, Mymensingh, and Sirajganj show increases under this head. There was comparatively little jute available in 1892.	
Jute, unscrewed ... ..	3,072
The increase was principally in despatches from Domar, Arniya, Goulundo, and Rangpur. The crop of 1892 was larger than that of 1891.	

	Tons.
Kerosine oil ... ..	8,365
Due to prohibition of carriage by boats within certain limits of the port of Calcutta.	
Hay, straw and wool ... ..	981
The increase was in bookings from Bansra, Canning, Diamond Harbour, and other stations on the Southern Section.	
Ten ... ..	1,061
Increased production.	

## DECREASES.

	Tons.
Rice ... ..	3,779
The chief decrease was in despatches from Sara, Goulundo, and Nowabganj. The abnormal demand which existed in 1892 accounts for this fluctuation.	

	Tons.
Oil-seeds ... ..	2,293
Goulundo shows a very large decrease under this head. The falling off is said to be due to short crop. It is also partly due to the competition of the river steamers.

JAPAN—STRAIT OF TSUGAR.

*Cape Siwokubi—Fog signal established.*

THE British Admiralty has given notice (No. 138 of 1893) that a fog signal has been established on cape Siwokubi (Blunt), northern shore of strait of Tsugar:—

The signal is a steam siren, which, during thick or foggy weather, will give one blast of six seconds' duration every minute.

Approximate position: lat.  $41^{\circ} 43' N.$ , long.  $140^{\circ} 58' E.$

*Bell buoy in fairway of approach.*

THE British Admiralty has given notice (No. 190 of 1893) that on or about 15th March 1893, a bell buoy, painted red and black in horizontal stripes, and surmounted by a black spherical cage, would be placed in the fairway of approach to South Channel, Yangtsze-Kiang entrance. The buoy is moored with Gutzlaff light-house bearing south, and Tungsha light-vessel N.  $60^{\circ} W.$ , distant  $8\frac{1}{2}$  miles.

*Pile light-house—Alteration in Tidal signals.*

WITH reference to notice to Mariners No. 63, dated 13th March 1893, issued by this office, the British Admiralty has given further notice (No. 192 of 1893) that on 1st March 1893 the tidal signals in use at all other ports in Queensland (see Notice to Mariners above referred to) would be adopted at Pile light-house, Brisbane river bar.

This alteration is made in consequence of the decreased depths of water in the various cuttings, for which the old code of tidal signals did not provide.

*Rangaunu bay—Sunken rock in fairway.*

THE British Admiralty has given notice (No. 196 of 1893) that the Commander of the S.S. *Staffa* reports the existence of a sunken rock, with 13 feet water on it, and 17 fathoms around, lying in the fairway of Rangaunu bay, with the north extreme of the northern Moturoa island bearing N.N.E., distant about  $2\frac{1}{2}$  miles, and mount Fukeki S.S.E.

Approximate position: lat.  $34^{\circ} 48\frac{1}{2}'$  S., long.  $173^{\circ} 21'$  E.

Further particulars concerning this rock will be given when examination of the locality has been made.

*Shoal southward of Wammer islet.*

THE following notice to Mariners, issued by the Vice-Admiral Commanding the Naval Forces in Netherlands India, No. 11, dated Batavia, the 12th April 1893, is republished for general information:—

The Commander of H. N. M. *Java* reports the existence of a shoal with 3 fathoms water on it, lying southward of *Wammer* islet, *Aroe* islands. This shoal lies at a distance of about  $1\frac{1}{2}$  cables S.S.W. from the following bearings:—

<i>Fatoedjoering</i> point ( <i>Maikoor</i> 1)	...	...	...	S. $31^{\circ}$ W.
S. W. extreme of <i>Wammer</i> islet	...	...	...	N. $70^{\circ}$ W.

## SOUTH PACIFIC OCEAN.

SAMOA OR NAVIGATOR ISLANDS.

*Vailele bay—Shoal in fairway of western entrance.*

THE British Admiralty has given notice (No. 179 of 1893) that a shoal, on which the sea breaks with heavy swell, lies in the fairway of the western entrance of *Vailele* bay, north coast of *Upolu* island. This shoal extends about one cable in a N.-W. by W. and S.-E. by E. direction, with probably about 2 fathoms water on it. Its east end (6 fathoms water) lies with *Branker* bearing S.-W. by W.  $\frac{1}{2}$  W., distant about  $7\frac{1}{2}$  cables. Between the shoal and the western reef, the edge of which is always visible, there is a channel with depths of 10 to

16 fathoms; the best channel, however, is southward of the shoal, keeping close to the north-west edge of the eastern reef, which is steep to and apparently clear of danger.

Approximate position of shoal, lat.  $18^{\circ} 50\frac{1}{2}'$  S., long.  $171^{\circ} 41'$  W.

### EASTERN ARCHIPELAGO—KE ISLANDS.

*Ke Dulan harbour—Bank in fairway of approach.*

THE British Admiralty has given notice (No. 180 of 1890) that the Commander of the Netherlands steam-vessel *Zeemecuw* reports the existence of a bank, lying in the fairway of approach to Ke Dulan harbour from the north-eastward, with Tanjong Serbat, bearing about S.  $\frac{1}{2}$  W., distant  $3\frac{3}{10}$  miles. The bank was indicated by the discolouration of water; the least depth obtained was 9 fathoms, but there is probably shallower water in the vicinity.

Position to be considered doubtful; lat.  $5^{\circ} 28' 45''$  S., long.  $132^{\circ} 47' 45''$  E.

CHINA—EAST COAST—PUTOY GROUP—HONGKONG APPROACH.

*Intended double flashing light and fog-signal on Wag lan islet.*

The British Admiralty has given notice (No. 160 of 1899) of the intended exhibition of a light from a light-house now in course of construction on Wag lan islet, Putoy group, approach to Hongkong by the Tathong channel:—

Wag lan islet light will be a double flashing white light of the first order, showing flashes at intervals of half a minute. It will be elevated 225 feet above the sea, and should be visible in clear weather, where not obscured by the land, from a distance of about 21 miles.

The light-house situated on the summit of the islet will be 52 feet high, and cylindrical in shape. The lower half will be painted white, the upper half red, the lantern and keepers' dwellings, white.

Approximate position: lat.  $22^{\circ} 11\frac{1}{2}'$  N., long.  $114^{\circ} 18\frac{1}{2}'$  E.

Also, that on the establishment of Wag lan islet light, the keepers, on hearing a bell, horn, steam-whistle, or other sound indicating the proximity of a vessel, will fire two guns with an interval of fifteen seconds between them, and if the vessel's fog-signal—showing that she is under way—continues to be heard, the guns will be repeated after an interval of twelve minutes.

### RESULTS OF EXAMINATION OF CANDIDATES FOR APPOINTMENT AS DEPUTY MAGISTRATES-COLLECTORS, AND SUB-DEPUTY COLLECTORS.

RESOLUTION—No. 101A—D.

APPOINTMENT DEPT.

*Dated Darjeeling, the 22nd May 1893.*

READ—

The Resolution of the 25th May 1892, reviewing the result of the examination held in March of that year, and appointing candidates to be probationers in the Executive Branch of the Provincial and Subordinate Civil Service.

The notification of the 15th November 1892, publishing rules for the examination for admission to the Executive Branch of the Provincial and Subordinate Civil Service of 1893.

The reports of the Examiners at the examination held on the 27th, 28th, 29th, and 30th March 1893.

As the result of the examination for the Subordinate Executive Service held in 1892, five gentlemen were selected to officiate as Deputy Magistrates and Deputy Collectors, twenty to be Probationary Deputy Magistrates and Deputy Collectors, and ten to be Probationary Sub-Deputy Collectors. The twenty Probationary Deputy Collectors have in due course been appointed to be Officiating Deputy Magistrates and Deputy Collectors, and the ten Probationary Sub-Deputy Collectors have also been absorbed either as substantive *pro tempore* or as Officiating Sub-Deputy Collectors of the 4th grade. The Lieutenant-Governor is glad to say that the report furnished by their official superiors of the working of these probationary officers has been satisfactory.

2. In November last it was notified that at an examination to be held in March 1893, seven candidates would be selected for Probationary Deputy Collectorships on a salary of Rs. 50 a month, and seven for Probationary Sub-Deputy Collectorships on a salary of Rs. 30 a month respectively. It was announced that four of the probationers for Deputy Collectorships would be appointed from the first four candidates on the list in order of merit, that three would be selected by the Lieutenant-Governor from amongst those who have obtained a minimum of one third of the total marks, and that from the remainder of those qualified by obtaining one-third of the total marks, the Lieutenant-Governor would select seven more candidates as probationers for Sub-Deputy Collectorships.

3. The examination so notified was held on the 27th, 28th, 29th, and 30th of March 1893. No fewer than 154 competitors obtained permission to compete, and of these 147 (of whom all except eight\* were graduates) actually appeared and sent in papers. Of these 147 candidates, 125 took up Bengali as their vernacular, 18 took up Hindi or Hindustani, and four took up Uriya. No less than 134 of the candidates have obtained the minimum of one-third marks necessary for appointment into the Subordinate Executive Service by nomination.

4. Further consideration of the number of probable retirements during the present year, and of the number of vacancies which are likely to be occasioned by the deputation of officers on settlement or other special duty, has shown that the number of advertised vacancies is not sufficient, and the Lieutenant-Governor has accordingly been pleased to direct that the number of Probationary Deputy Collectorships to be now filled up shall be raised from 7 to 10, and the number of Probationary Sub-Deputy Collectors from 7 to 14. In order to avoid a block among the Probationary Sub-Deputies, the Lieutenant-Governor has also decided to select ten officers from that class during the year to officiate as Deputy Collectors, the choice being made with reference to character, qualifications, standing in the service, and the result of the competitive and departmental examinations.

5. The following Sub-Deputy Collectors, who passed 5th, 8th, 13th, 22nd and 25th respectively at the recent examination, will now be promoted to officiate at once as Deputy Collectors:—

Babu Jotendra Mohan Sinha, B.A.  
 „ Lolit Chundra Das Gupta, B.A.  
 „ Makhun Lall Chatterjee, M.A.  
 „ Akshoy Kumar Sen, B.A.  
 Mr. Rowland Nogensdra Lall Chandra, M.A.

6. The following four gentlemen, who stood first in order of merit, are entitled to appointments as Probationary Deputy Collectors:—

				Number of marks.
Babu Debendra Kumar Mittra, M.A.	...	...	...	518
„ Nogensdro Nath Dutt, M.A.	...	...	...	516
„ Bepin Bihary Banerjee, M.A.	...	...	...	508
„ Jyotish Chunder Sen, B.A.	...	...	...	502

The number of candidates to be selected by the Lieutenant-Governor from among those who have obtained one-third marks is raised from three to six. The choice has been carefully made with reference to the number of marks obtained, the claims upon Government of members of the candidate's family, the interests of the different classes of the community, and the requirements of the public service. The following are the candidates selected for appointment as Probationary Deputy Collectors:—

Babu Jogeshwar Biswas, B.L.  
 „ Brij Bansi Sahai M.A., B.L.  
 Maulvi Mahomed Yusaf Ali, B.A.  
 Babu Mati Lal Roy, B.A. (No. 1).  
 Mr. L. J. Clarke, B.A. (Oxon).  
 „ R. B. Bainbridge.

All these probationary officers will receive a salary of Rs. 50 per mensem, and if the report from the districts in which they are stationed is favourable,

they will, after such period of probation as may seem advisable, be appointed to be Officiating Deputy Magistrates and Deputy Collectors as vacancies occur. They will not ordinarily be vested with magisterial powers until they are so appointed. Separate orders will now be passed posting all the gentlemen above named to districts.

7. The following are the 14 candidates selected by the Lieutenant-Governor from among those who have obtained one-third marks to be Probationary Sub-Deputy Collectors:—

- Babu Hem Kumar Mullick, B.A.
- „ Himangshu Nath Chuokerbutty, M.A.
- „ Chintaharan Chatterjee, B.A.
- „ Charu Chundra Kumar, B.L.
- „ Paramesh Prasanna Roy, B.A.
- „ Harendra Nath Banerjee, M.A.
- „ Hara Krishna Mahanti, B.A.
- „ Monmotho Nath Sircar, M.A., B.L.
- „ Bhupendra Nath Gupta, B.A.
- „ Rai Krishna Bahadur, B.A.
- „ Rama Ballabh Misra, M.A.
- Maulvi Syed Abdul Salek, B.A.
- „ Mohamed Habib Rahman, B.A.
- „ Syed Ali Mazhar, B.A.

The probationary officers will receive a salary of Rs. 30 per mensem at present, and will, if they are satisfactorily reported on, be gradually absorbed into the fourth grade of Sub-Deputy Collectors as vacancies occur. Separate orders will at once be passed posting them to districts.

ORDER.—Ordered that the above Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

H. J. S. COTTON,

*Chief Secretary to the Govt. of Bengal.*

\* Means of 5 days. † Mean of 6 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the readings during the same period of the year. The humidity of the atmosphere is expressed at percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10.

for the week ending Saturday, the 27th of May 1893.

**SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS  
TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY,  
THE 27TH MAY 1893.**

THROUGHOUT the greater part of the week weather in the north of the Bay, and latterly in Lower Bengal, has been under the influence of a depression which appears to have commenced in the extreme south of the Bay some days before, and taking an almost northerly course up the Bay, began to affect the general weather conditions on the north-west coast on Saturday, the 20th, the last day of the previous week.

On the 17th, as for some days before that, the conditions which are supposed to lead up to and initiate stormy weather in the Bay were unusually well marked, viz., very uniform pressure with light winds and cloudless skies. The change from these conditions began to appear in the south of the Bay in steeper gradients, and by the northward advance of a moist current in the east of the Bay, giving heavy rain in Burma and Arakan. The storm was then probably not well defined, but in any case the centre of the disturbance must have been too far from any of the observatories on the coast for its position to have been even guessed at, far less determined. The only information to hand regarding its early history is from the log-book of the *S. S. City of Cambridge*, which left Ceylon on the 17th, and passing through the disturbance reached the head of the Bay on the 20th. At first a gale from the south was experienced, and afterwards from the north-east, while pressure was very unsteady. The bad weather was left behind, and in the extreme north of the Bay ordinary weather prevailed.

On Sunday, the 21st, the first day of the week under review, after a steady fall of pressure for several days all round the coast, a depression was shown covering the whole of the north of the Bay, but it had not then begun to cause bad weather at any of the meteorological stations. The sea was very rough at Diamond Island, and a fairly strong wind was blowing, but after a day or two both wind and sea began to moderate. When this improvement was established at Diamond Island, the depression had become better defined in the north-west of the Bay, and it then appeared that the disturbance was similar in character to the ordinary small storms which occur frequently in the rainy season.

On Monday, the 22nd, pressure was rising briskly in the south-east of the Bay and changes were small everywhere, while wind velocity was low except at Diamond Island and in Ceylon. After this, however, its motion was slow towards the north, the centre probably passing in an almost northerly direction, and at no great distance from the North Orissa Coast. On Tuesday, the 23rd, pressure fell rapidly at False Point, the wind remaining north-easterly until the evening, when communication with the station ceased. Pressure had fallen to 29 inches, and this fall was accompanied by a strengthening wind and incessant heavy rain. At 8 A.M. on Wednesday morning the centre appeared to be almost east of False Point, and wind velocity was increasing at all the stations on the north-west coast, as well as over all Lower Bengal, but rainfall, though very heavy in Orissa, and gradually extending to South-West Bengal, was very partial at stations further inland or entirely absent. During Wednesday and Thursday the motion of the depression must have been very slow, and at times it appeared to be almost stationary, but it was steadily developing. On the afternoon of Thursday it seemed to be moving in a more westerly direction, so as to pass well to the west of Balasore, as the wind directions at Saugor Island, Calcutta and Balasore began to change to south through east, and the velocity fell considerably at the first two. In the evening of Thursday, however, the winds returned to their previous north-easterly directions and began to increase rapidly in strength. On the near approach of the centre, pressure fell with great rapidity at Saugor Island, the lowest reading reported being at 5 o'clock on Friday morning, when it was 28.423 inches. The centre must then have been a short distance to the west of Saugor Island. A hurricane began about 4 A.M., and continued for many hours. At 5 A.M. the velocity was reported to be not less than 90 miles an hour, and the continuance of these high winds is shown by the average velocity from 8 A.M. on Friday to 8 A.M. on Saturday being 50 miles an hour. After passing Saugor Island the centre moved more to the west, passing about half way between Calcutta and Midnapore in the early part of the afternoon. It then returned to its previous direction, and passed slowly across the central and eastern districts of Bengal, but with steadily diminishing intensity.

The weather in Lower Bengal was necessarily very unsettled during the last half of the week. Strong cyclonic winds were blowing at all stations, and a good deal of rain was falling; but in Bihar and North Bengal fine weather continued till the end of the week. After the storm centre crossed the coast, very heavy rain preceded and accompanied its advance. Rainfall, however, became lighter and less general after the area of lowest pressure passed the central stations, and it never extended to North Bengal and Bihar. The north-easterly motion of the centre had evidently an important influence on the quantity of rain and its distribution in the northern districts, as the cyclonic circulation of winds which prevailed over a wide area meant westerly directions, and comparative absence of moisture even when the centre was still within a short distance from Calcutta.

**Pressure.**—The passage of the depression caused large fluctuations, and at the centre pressure was probably considerably lower than even at Saugor Island, where it reached 28·428 inches. At False Point it fell to 29 inches before communication ceased, and at Calcutta, Midnapore, and Balasore readings on Friday were very little over 20 inches. Owing to the slow motion of the depression changes during Friday were very small except at Saugor Island, Balasore and Midnapore, and at Sirajganj and Faridpur, where there was a rapid fall owing to the advance of the depression in that direction. Defect was very large for several days, and has affected the means for the week at all stations in Orissa and South Bengal. The largest mean defect is ·816 inch at Saugor Island, and it exceeds a quarter of an inch at Outtaok, Balasore and Calcutta. In the northern districts defect was very little over a twentieth of an inch.

**Temperature.**—Owing to the cloudy weather which prevailed in Lower Bengal and Orissa during the whole or a considerable part of the week, day temperatures were many degrees below the normal and night readings also, though to a much smaller extent. In North Bengal and Bihar, however, where the influence of the cyclone has been very slight, ordinary temperatures have continued. Defect in mean temperature is over 8° at Cuttack and Midnapore, and over 5° in many parts of South-West Bengal and Chota Nagpur. Average defect for Chota Nagpur is 6·9°, Orissa 5·7° and South-West Bengal 5°. In East Bengal there is defect of only 1·6° and South Bihar of half a degree, while in Assam, North Bengal and Bihar there is excess ranging up to 3·7° in Assam.

**Rainfall** has been unusually heavy in Orissa and South-West Bengal; the detailed falls will be found in the accompanying tables. In Chota Nagpur and also East Bengal considerably more than normal amounts have fallen, but in North Bengal and Bihar falls are either average or under. The mean fall for the whole of Orissa is 17·76 inches, in South-West Bengal 6·91 inches, East Bengal 6·98 inches, and in Chota Nagpur 2·66 inches. North Bengal received 1·98 inches as compared with a normal fall of 2·39 inches, South Bihar ·88 inch and North Bihar ·89 inch.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 27th of May 1893:—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

The Reports for the years 1890 and 1891, and the orders of Government recorded thereon.

DR. LETHBRIDGE held the office of Inspector-General of Jails until the 28th March, the date of his appointment as Superintendent of Thuggee and Dacoity Operations. He was then relieved by Surgeon-Major D. W. D. Comins, who was in charge of the department during the remainder of the year.

2. The number of Central, District, Intermediate and Subsidiary Jails remained unchanged during the year. The following table shows the number of prisoners of all classes confined in the jails and subsidiary jails of the province in the last ten years.

	1883.	1884.	1885.	1886.	1887.	1888.	1889.	1890.	1891.	1892.

\* The 19 prisoners (15 male convicts and 3 male and 1 female under-trial) who remained at the Deoghur Magistrate's bazar on the 31st December 1891, before it was converted into a subsidiary jail, were not accounted for in the statistics for 1891.

From these figures it appears that the number of admissions during the year, as well as the number of prisoners remaining in custody at its close, was larger than in any other of the past ten years. The daily average population has risen from 15,916 in 1891 to 17,180 in 1892, and this is almost entirely due to the increase in the number of male convicts admitted. On the other hand there was a satisfactory decrease in the daily average of under-trial prisoners present in jails, the number having fallen from 1,359 in 1891 to 1,240 in 1892.

Of the 46 Central, District and Intermediate Jails, and their affiliated Subsidiary Jails (or Lock-ups), 30 show an increase in the total number of direct admissions. This is attributed to the scarcity that prevailed in these districts, and to the rise in the price of grain, which led to the commission of a large number of thefts. It is noticed that the districts which show the greatest increase or decrease of crime are as a general rule those which were most or least affected by these causes. The Lieutenant-Governor has no doubt that this is the true explanation of the increase of crime during the year. There was a general rise in food-prices, and the province narrowly escaped a severe scarcity.

3. The following table compares the releases under the various heads with the figures for the six previous years:—

	1886.	1887.	1888.	1889.	1890.	1891.	1892.
Released on expiry of sentence ... ..	27,125	21,398	26,432	28,754	28,464	28,873	32,543
„ on appeal ... ..	1,845	1,903	1,580	1,942	2,633	2,120	2,156
„ under remission rules ... ..	1,673	1,017	1,352	1,575	1,622	1,601	1,508
„ on medical grounds ... ..	26	23	33	37	39	105	140
„ on other grounds ... ..	27	6,484	88	2	0	9	6

Although there was a slight increase in the number of releases on appeal, His Honour notices with satisfaction that the percentage of such releases to total imprisonments has fallen from 6·19 in 1890 and 6·08 in 1891 to 5·59 in 1892, thus justifying the discretion of the Magistrates whose sentences were appealed against. The number of prisoners released on medical grounds has increased from 105 in 1891 to 140 in 1892. Of these, 26 were released under rule 488A of the Jail Code, which authorises the release of prisoners who are likely to die if detained in jail, but have a probability of recovery if released; while 112 were released under rules 487 and 488 which apply to prisoners who are almost certain to die, and who are released, not in the hope that they will recover, but that they may have the comfort of dying at home.

4. Out of the 38,538 convicts admitted direct into jail during the year, 22,901 or 59·43 per cent. were Hindus, 13,762 or 35·71 per cent. were Muhammadans, and 685 or 1·78 per cent. were Christians. The number of juveniles under 16 years of age admitted to jail was 453 or 1·17 per cent. of the total admissions, as compared with 371 or 1·06 per cent. of the total admissions in 1891. The Reformatory Schools at Alipore and Hazaribagh continue to do excellent work. A proposal to amalgamate the two schools and to locate them at Hazaribagh was under consideration during the year, but was finally abandoned, the Lieutenant-Governor deciding that it would be inadvisable to make any change in the existing arrangements.

• The proportion of cultivators to other classes of prisoners admitted into jail fell from 63·44 per cent. in 1891 to 61·94 per cent. in 1892. The number of female convicts admitted direct was 1,484, as compared with 1,431 in 1890 and 1,265 in 1891.

5. The number of re-convicted prisoners admitted into jail during the year was 3,888 or 10·08 per cent. of total admissions against 3,226 or 9·26 per cent. in 1891. Of this number 2,840 had one previous conviction, 658 had two previous convictions, and 390 had more than two. The Inspector-General attributes the increase to greater accuracy in recording re-convictions. Further progress was made during the year in improving and extending the anthropometrical system for the identification of habitual offenders. The system promises to be of the greatest value in the future, but so far it has not been found possible to put it to any practical test, and no re-conviction was proved by its help during the year.

6. Of the 16,648 convicts confined in jail on the 31st December 1892, 8,226 or 49·41 per cent. had sentences not exceeding one year, as compared with 7,993 or 51·80 per cent. on the last day of 1891. The number of prisoners admitted in 1892 with sentences exceeding one year was 4,327 against 3,963 in 1891. The number of sentences of simple imprisonment rose from 2,472 or 7·10 per cent. of the total number of admissions in 1891 to 2,769 or 7·18 per cent. in 1892. Sentences of judicial whipping increased from 1,539 in 1891 to 2,029 in 1892, while the number of boys whipped rose from 458 to 565. The number of punishments of rigorous imprisonment with solitary confinement imposed during the year was 149, against 30 in 1890 and 56 in 1891. Sir Charles Elliott is glad to see that greater use is being made of this form of punishment, which is useful as a deterrent, and is particularly appropriate for certain classes of offences.

7. The number of under-trial prisoners admitted during the year was 33,325 as compared with 30,304 in 1891, and the number remaining in jail at the close of the year was 1,071 compared with 1,089 on the last day of 1891. Of the total number thus admitted, including these remaining on the first day of the year, 17,688 or 51·1 per cent. were finally convicted, as against 15,036 or 49·6 per cent. in 1891. It is satisfactory to notice that, in spite of the large increase in the total number of prisoners admitted into the jails of the province in 1892, the number of under-trial prisoners at the close of the year is less than it has been for the three preceding years. The number of escapes among under-trial prisoners has fallen from 33 in 1891 to 8, and of these 3 remained uncaptured at the end of the year.

8. There has been a satisfactory improvement in the detention of under-trial prisoners during the year. In Sessions cases the average period for detention for the whole province was 39·70 days, as compared with 49·96 in 1891 and 45·88 in 1890. In Monghyr, Hazaribagh, Khulna and Faridpur the average detention exceeded two months, while in Birblum and Neakhali it was below 20 days. In trials before Magistrates, the average period of detention for the whole province was 10·77 days as against 13·38 in 1890 and 11·96 in 1891. These figures afford valuable testimony to the improvement, on which the Lieutenant-Governor has so continually insisted, in trying judicial cases with greater promptitude, and His Honour is

glad to believe that the delays in procedure which constitute so serious a blot on the administration of justice have materially diminished in almost all districts. The longest average detention during the past year occurred in Jessore, 17·13 days; Purnea, 15·96 days; Rangpur, 15·31 days; Noakhali, 14·80 days; and Darbhanga, 14·69 days. The Lieutenant-Governor notices that Khulna has again the best record in the province, and that the average period of detention, which in 1891 was only 2·57 days, has reached the remarkably low figure of 0·93 days.

9. There were 71 civil prisoners in confinement on the last day of 1891, and the total number of admissions during the year fell from 1,089 to 873. Of these, 867 were released and 6 were transferred, leaving 71 in jail at the end of the year, the same number as that with which it began.

10. Four Lushai State prisoners were received into the Alipore Central Jail in May 1892. In July one of these, a man named Nikoalo, murdered one of his companions in the jail. He was committed to the Sessions for trial, but as he was found to be insane, he was remanded to the jail, where he is still under observation. The two remaining Lushais were retransferred to Silchar in August by order of the Government. Two other Lushai Chiefs were confined in the Hazaribagh Jail during the year. One was in jail throughout the year, and the other was received in August 1892. The health of these prisoners is good, and they appear to be comfortable and well looked after.

11. Excluding a sum of Rs. 9,960 expended on the Press buildings in the Presidency Jail, and Rs. 4,560 on the Reformatory School at Alipore, the total expenditure on jail works during the year was Rs. 1,56,543 as against Rs. 2,03,705 in 1891. Among the principal works carried out were the construction of a new jail at Palamau at a cost of Rs. 12,274, and of four new subsidiary jails at Alipore (Jalpaiguri) Rs. 14,666, Thakurgaon Rs. 14,772, Fenny and Munshiganj, and the re-roofing of the workshop of the Buxar Central Jail.

The advisability of the more extensive employment of convict labour on public works was referred to in his report last year by the Inspector-General, who was then in consultation with the Chief Engineer on the subject. It was expected that the number of prisoners thus employed would show a considerable increase during the year; but the expectation has hardly been realised, and the actual increase was only from 974 in 1891 to 997 in 1892.

12. In consequence of the raising of the status of the Tippera Intermediate Jail to that of a District Jail, the total strength of the warder guard has been increased from 1,607 men of all grades in 1891 to 1,620 in 1892. The practice of utilizing the Jail establishment of warders for the purpose of furnishing escorts to prisoners required by Magistrates to be produced before the Courts has been discontinued during the year, and orders have been issued directing that such escorts should in future be supplied by the Police. The Inspector-General mentions the great difficulty frequently experienced by Central Jails in meeting the demands for warders for District and Intermediate Jails, and he fears that, in consequence, the warders sent out from Central Jails were not always sufficiently trained in their jail duties or in drill. It is satisfactory to know that the warders have as a body worked well and cheerfully throughout the year, and this in spite of the high price of food, which pressed somewhat heavily on their means of subsistence, and of the greater responsibility and extra work thrown on them owing to the increase in the jail population and to the number of cases of sickness among the jail staff. Dr. Comins speaks highly of the smartness and efficiency with which many of the warder guards whom he inspected performed their physical exercises and drill movements. At his recent inspection of the Chittagong Jail, the Lieutenant-Governor tested the shooting of the warders at the rifle range, and the results showed that they had had little or no practice in this particular form of drill. His Honour would be glad to see a regular course of practice in firing prescribed, and he considers that in this as well as in ordinary drill the warders should combine with the regular police.

13. There were 34 escapes of convicts as compared with 13 in 1890 and 21 in 1891. Of this number, 2 were from Central Jails, 14 from District Jails, 7 from Intermediate Jails and 11 from Subsidiary Jails. Twenty were recaptured during the year, besides two who had escaped in previous years. On this subject Dr. Comins writes as follows:—

“The causes of the increased number of escapes are to be found in—

- (a) The increased population.
- (b) The lessened proportion of guards to prisoners.
- (c) The increased work devolving on individual warders from more prisoners, as well as increased sickness in this unhealthy year among the warders, and the number from time to time unfit for duty.
- (d) The necessity for using less secure enclosures and wards, which with a smaller jail population had been abandoned.
- (e) The retention, owing to the fulness of Central Jails, of long-term prisoners for a longer period than usual in District and Subsidiary Jails, where the chances of escape are greater.”

These reasons have doubtless much weight, but the increase in the number of escapes is greatly to be regretted, and every endeavour must be made to put a stop to them in future.

Only one escape occurred from among the numerous gangs employed by the Public Departments, District Boards, or Municipalities, and that was due to the grossest carelessness on the part of the paid warder in charge of the gang. This is a creditable record considering the risks which unavoidably attend the extra-mural employment of convict prisoners.

14. The total number of offences committed by prisoners during the past year was 34,750 against 26,459 in 1891. The ratio of punishments to the daily average jail population increased from 183.1 in 1891 to 219.4 in 1892. The increase in the number of punishments is to be deplored, but Sir Charles Elliott sees no reason to suppose that any undue severity was shown, and the punishments themselves appear to have been moderate and judicious. As compared with 1891, there was a reduction in the number of cases of punishment by solitary confinement, but the percentage of whipping to the daily average number of male prisoners remained practically unchanged. The following table gives the statistics of punishments during the past seven years.

	By criminal courts.	BY JAIL OFFICERS.					Total punishments.	Ratio per cent. of total punishments to daily average number of prisoners.	Ratio per cent. of corporal punishment to total number of all punishments inflicted on male prisoners.

“All other punishments” are analysed as follows and are compared with those for 1891:—

	1891.	1892.
Handcuffs	7,629	10,878
Fetters	8,840	11,321
Loss of marks	4,087	4,561

Penal or hard labour	686	1,161
Loss of early morning meal	345	979
Work in cells	10	9
Reduction and degradation of prison officers	515	652
Shaving the heads, and cutting the hair of female convicts	127	67
All other miscellaneous punishments	336	677
Total	23,863	32,133

15. The number of prisoners employed as convict officers during the year was 2,198, of whom 409 were in the highest grade of convict warder. The ratio per cent. of the average number in jail was for male convict officers 5.58 against 5.80 in 1891, and for females 1.56 against 0.37. The Inspector-General reports that, as a general rule, these convict officers have done their work well, and by being employed at night in patrolling duties have afforded some relief to the staff of paid warders whose work has, for reasons already explained, been increased during the year. The number of convict officers punished was 1,783 against 1,580 in 1891. Of the 1,608 prisoners released during the year who wore on the mark system, only ten failed to get remission under it.

16. The following table shows the gross expenditure for jails and subsidiary jails in 1892 and for the nine years preceding:—

The increase under the heads Diet, Clothing, and Contingencies is due to the increase in the jail population from an average of 15,915 in 1891 to 17,178 in 1892. The average cost per prisoner under all heads of expenditure, excluding Public Works, was Rs. 74-10-6, showing an increase of Rs. 1-6-9 over that of last year, but the average is still below that for the four previous years.

17. The average prices paid for the chief articles of diet during the year 1892, as compared with those of previous years, are given below:—

There was a great rise in the price of all food-grains during the year, with the exception of maize, and the average price of rice rose from Rs. 2-1-9 in 1891 to Rs. 2-9-1 in 1892. In this connection Dr. Comins writes:—

‘Had it not been for the timely storage of grain at the cheap season of the year, the cost under head “Diet” would have been very much heavier. There is ample evidence, however, that this has not been taken advantage of to the fullest extent, and there is yet much left to be done before the saving under this head will have reached its utmost limit. The arrangements for those large transactions have been left too much in the hands of jailors, who are timid and fear the responsibility of large bargains, and it is hard to break them of the time-honoured custom of buying in small quantities from the local bunnia at retail prices, and they have many duties which prevent them travelling far afield and of keeping themselves informed of the exact time when, and place where, the best bargain can be made. Much better results have been obtained where the Superintendent has personally enquired into or completed arrangements, or has effectively controlled and encouraged the efforts

of his jailor. Sufficient efforts to ensure a full supply of grain at the cheap season have not been made in all cases, and the cheapest season has been allowed to pass before the bulk of grain has been secured. In other cases, rice has been bought where it would obviously have been cheaper to have bought paddy, the husking and preparing of which would have also afforded good labour to the prisoners. The arrangement which promises to give the best results is that followed by the big grain merchants, who make advances to the zamindars or local cultivators before the grain is harvested, and thus have the first and best of the market."

As a successful example of the economy that can be effected by good management, the Inspector-General instances the case of the Dinajpur Jail, where Dr. R. M. Blaker and Jailor Gopal Chandra Chandra purchased 3,000 maunds of paddy in the Bogra district at a cost, including carriage, considerably less than that paid by the Bogra Jail, and when prices rose were able to dispose of the surplus stock at a profit. In this part of his report Dr. Comins has shown great attention to the question of expenditure on diet, and the means by which it can be kept down. Sir Charles Elliott fully endorses his remarks, which, if they are carefully studied by Jail Superintendents, cannot fail to be productive of useful results in the future.

18. The following table gives the average expenditure per prisoner on diet in each jail compared with that of the previous year :—

The great increase in the cost of diet in the Purnea Jail is accounted for partly by the special and extra food given to the prisoners under medical advice, and partly by the high price of rice prevailing in the neighbourhood. Since Dr. Kelly took over the management, great economy has been effected in the cost of diet in the Naya Dumka Jail, which last year, leaving out Darjeeling, was the most expensive jail in the province. In the present year Patna heads the list of cheaply managed jails (as far as the cost of diet is concerned), and this result is in no small measure due to the efforts of the Jailor, Babu Lal Behari Singh, who was noticed in last year's report as the jailor at Gaya, which was the most cheaply managed jail in the province in 1891. Dr. Comins also mentions, as worthy of special commendation, Babu Becharam Gupta, the Assistant Jailor of Manbhum, and Munshi Dallaruddin Ahmed and Babu Ganesh Chunder Singh, Assistant Jailors of Pabna.

19. The supply of vegetables and condiments grown in the jail gardens was found to be insufficient for the wants of the prisoners, and in 23 jails condiments to the value of Rs. 3,099 had to be purchased, while in 8 jails vegetables were bought to the value of Rs. 973. This was in a great measure due to the unexpected increase in the jail population, but the Inspector-General also attributes it partly to the want of energetic management of the jail gardens. The number of lime-trees grown in jail gardens was 15,525, or nearly one tree for every prisoner confined in the jails of the province.

The total value of articles supplied to prisoners, for which no credit is taken in the account, was Rs. 91,441 against Rs. 72,831 in 1891 and Rs. 53,747 in 1890. The increase is said to be chiefly due to the further development of the jail

dairies, the value of the produce of which is estimated at Rs. 26,312 in 1892 against Rs. 13,784 in 1891. The value of grain grown in jail lands fell from Rs. 7,124 in 1891 to Rs. 5,786 in 1892, the decrease being due to the scanty rainfall of the preceding year.

20. The cost of establishment was Rs. 3,88,293 as against Rs. 3,84,825 in 1891, being an increase of Rs. 3,468. Hospital

Establishment.

charges fell from Rs. 48,751 in 1891 to Rs. 47,368 in 1892, the decrease being attributed to the supply of milk (both cheaper and purer than that bought in the bazar) to the sick prisoners from the jail dairies. Clothing charges rose from Rs. 55,444 1891 to Rs. 73,427 in 1892, and this is accounted for by the increase in the jail population during the year. The expenditure on contingencies was Rs. 1,69,793 against Rs. 1,47,722 in 1891.

21. The total average cost per prisoner on account of diet, hospital charges, and clothing amounted to Rs. 33-1 against Rs. 29-11 9 in 1891 and Rs. 31-3-5 in 1890. The jails of Manbhum and Malda show the best results. As in former years, Buxar was the cheapest Central Jail in the province.

22. The daily average number of prisoners sentenced to labour was 15,613 against 14,231 in 1891 and 13,241 in 1890.

Employment of prisoners and manufactures. The daily average number of sick increased from 607 in 1891 to 683, while the number of convalescent and infirm fell from 1,285 to 1,243. The number employed on unremunerative labour increased from 729 in 1891 to 985 in 1892. The net cash earnings show a satisfactory increase, the figures being Rs. 3,23,211 for 1892 against Rs. 1,50,842 in 1890, and Rs. 3,14,021 in 1891. The increase in 1891 was mainly due to the working up of the large stock of castor seed at Rajshahi at the end of 1890, and to the realization of heavy outstandings from the Railway Department during the year, and the improvement thus effected was maintained during the year under review. On the subject of the beneficial effects of labour on health the Inspector-General has some interesting remarks to offer. Weak and sickly prisoners who have hitherto been supposed incapable of any kind of labour have been more extensively employed on gardening and other light kinds of work. In his Resolution on the Report on the Administration of the Jails of Bengal for 1891, the Lieutenant-Governor remarked on the health-giving effects of moderate labour in the case of weakly prisoners, and he now notices with satisfaction that the question has received greater attention on the part of Superintendents during the past year, and that the experiments made have resulted in a general improvement in the health of the prisoners so employed and in diminishing the numbers in the special and convalescent gangs.

23. The average earnings per prisoner sentenced to labour in Central Jails as compared with the figures for 1891 is shown below:—

		1891.	1892.
		Rs.	Rs.
Presidency	...	91·0	115·1
Buxar	...	36·0	33·2
Alipore	...	50·5	29·9
Bhagalpur	...	14·2	23·3
Midnapore	...	23·9	22·9
Dacca	...	9·4	8·9

In the Presidency Jail the profits from jail manufactures rose from Rs. 1,14,602 in 1891 to Rs. 1,50,011 in 1892. Towards this amount the printing industry contributed Rs. 1,47,345, and the work of this department is favourably noticed by the Inspector-General in his report.

In the Alipore Jail profits on manufactures fell from Rs. 91,386 in 1891 to Rs. 55,580; this is accounted for by the abnormally high price of jute during the year. The packing of quinine in 5-grain packets for sale at post-office was introduced into this jail in the middle of December, and by the end of the month the outturn had risen to 10,000 daily. In the Bhagalpur Jail the profits show a satisfactory increase from Rs. 17,088 in 1891 to Rs. 30,794 in 1892, and the quality of the outturn of articles manufactured is reported to have much

improved. In the Buxar Central Jail there was a slight falling off in the profits on manufacturing operations, while in the Dacca Jail they remained practically unchanged. The Rajshahi Jail compares unfavourably with the other Central Jails of the Province, and the year's operations resulted in a loss of Rs. 3,562-12 principally on the castor-oil manufacture. This is partly accounted for by the deterioration in the value of dead-stock and of other articles improperly shown under that head, amounting to Rs. 4,959-11, which had to be written off. The Inspector-General remarks that the jail is badly situated for the working of an industry of this kind, in which outside competition is so keen, especially as with jail labour the full percentage of oil is not extracted. The profits of minor jails show an increase from Rs. 61,174 in 1891 to Rs. 68,263 in 1892. Darjeeling again heads the list with a profit of Rs. 8,880, or an average of Rs. 102-1 per prisoner sentenced to labour.

24. During the year nine out of the 86 subsidiary jails were visited by the Superintendents less than 70 times, the minimum number required.

#### Subsidiary Jails.

The number of convicts admitted into the Subsidiary Jails during the year was 17,385 as compared with 15,415 in 1891, the increase being accounted for by the large number of petty thefts following on the general scarcity and the high price of grain. The average detention of convicts was 7-26 days against 7-42 in 1891. In the Alipore (Jalpaiguri), Angul, and Khond Mahal Subsidiary Jails the average detention was over 15 days, in the first case because the prisoners were detained to assist in the construction of the new jail buildings, and in the other cases owing to the difficulties connected with the journey to Cuttack. The Lieutenant-Governor is of opinion that in these places the rules as to detention should be relaxed, as the prisoners might be usefully employed in the Subsidiary Jails in building, cultivation, jungle clearing or any other kind of work. The average detention of under-trial prisoners in Subsidiary Jails for 1892 was 11-30 against 13-55 in 1891. The decrease is all the more satisfactory, as the average number of prisoners admitted into jails was larger than in the preceding year. The total cost of the Subsidiary Jails during the year, excluding Public Works, was Rs. 1,08,994 as compared with Rs. 1,08,963 in 1891. The credits from jail manufactures amounted to Rs. 24,129 against Rs. 20,815.

25. During the year all the different waters, ordinarily in use in jails, have been analysed by the Chemical Examiner to Government with a view to determining the

#### Water-supply.

best source for selection. The principle that all water should be raised by pumps and should be conveyed by means of pipes to the settling tank, boiler and filter, and thence to the different enclosures, has been sanctioned for general application in all Jails and will be gradually introduced as funds are available. In jails where buckets are used instead of pumps, the difficulty hitherto experienced in preventing the pollution of the water before use has been in some measure obviated by altering the shape of the bucket, and by the construction of a funnel-shaped opening in the well. Mr. Larymore's improved boiler for drinking-water has been supplied to several jails during the year, and the scheme for supplying the Arrah jail with water from the Sone Canals has approached completion. All these are very important reforms, and His Honour would be glad to see every jail supplied with such appliances, that water need never be contaminated in handling or carrying. It is of the utmost importance that all water should be really boiled and not merely heated before being used for cooking or drinking.

26. From statement XV appended to the Report, it appears that the maximum population on any one day considerably exceeded the capacity in many jails. Owing to the

#### Accommodation in jails.

large increase in the daily average number of male convicts, and the narrow margin of accommodation allowed, this is often unavoidable. As all the Central Jails were quite full during the year, considerable difficulty was frequently experienced in providing accommodation for prisoners in the sleeping wards. Among the jails in which overcrowding occurred, the Inspector-General especially notices those at Buxar, Dacca, Mymensingh, and Jessore, in which the daily average of male convicts, after deducting the number of sick prisoners in hospital, exceeded by over 50 the capacity of the jails. In such cases the prisoners were allowed to sleep in workshops specially prepared for them,

or in under-trial wards, or in the case of old and weakly prisoners, in the hospitals, whenever the accommodation permitted. In view of the increasing jail population, the necessity for additional accommodation is very great. A sum of one lakh of rupees has been placed at the disposal of the Inspector-General for original works during the present year, and this will be utilized in increasing the accommodation for prisoners in the jails at Bhagalpur, Barisal, Jessore, Malda and Comilla. In accordance with the recent orders of the Lieutenant-Governor, the surplus population of the jails will, as far as possible, be accommodated in the Central Jails in additional wards to be constructed for this purpose.

The daily average number of sick prisoners rose from 610 in 1891 to 687, and this is attributed to the increase in the population of the jails and the general unhealthiness of the year. The jails which have returned the highest ratio of daily average sick were Jessore 87.9, Dinajpur 86.2, Singhbhum 85.9, Naya Dumka 85.0, Malda 71.8, and Champaran 67.2. The number of admissions into hospital from dysentery and diarrhoea exceeds by nearly 1,000 the number for 1891, and this the Inspector-General attributes to the fact that a large number of the prisoners who were received into the jail had for months been subsisting on unnutritious and indigestible food. There were 115 cases of cholera with 60 deaths against 81 cases and 48 deaths in the previous year. The number of cases of cerebro-spinal fever fell from 23 to 9, and the deaths from 18 to 6. There were 45 cases of small-pox and 14 deaths compared with seven cases and one death in 1891. Of the 45 cases no less than 41 occurred in the Dacca Jail, and of these 13 proved fatal. All the prisoners in the jail, numbering 3,465, were vaccinated, and in 1,416 cases the first operation proved successful; the rest were revaccinated, 1,303 with successful results. Fourteen prisoners who were attacked with small-pox in the jail were also vaccinated a month after their recovery with the extraordinary result that in six cases the operation was completely successful. Dr. Cobb's account of the results of his experience (paragraph 102 of the Report) is altogether very remarkable, and deserves the careful perusal of the Medical Faculty. The facts will be further considered in the Vaccination Report.

28. The total number of deaths among convicts in jails and subsidiary jails, including the 112 moribund prisoners who were released under rules 487 and 488 of the Jail Code, was 683 or 43·1 per mille against 454 or 31·4 per mille in 1891. The average death-rate for the last 30 years was 56·3 per mille. Excluding the released moribund prisoners, and 3 cases of death by accident, the number of prisoners who died in other than subsidiary jails during the year was 551, and of these only 166 were received into jail in good health, while 178 were found to be in bad health, and 207 in indifferent health at the time of admission. The following jails show a death-rate higher than 70 per cent. during the past year:—

NOTE.—Including moribund prisoners released during the year 1892.

\* Of the 15 intermediate jails, 7 are included in the above list and only 4 are district jails. The mortality in the small jail at Naya Dumka is extraordinary, and the case has been specially reported on. There were 20 deaths among the convicts received into the jail, and of this number 9 were due to cholera. There were also six deaths, of which one was from cholera, among the under-trial prisoners. Nearly all these deaths occurred between the months of June and October when cholera and bowel diseases were prevalent throughout the district, and scarcity and want pressed heavily on the surrounding population. It is satisfactory to know that no deaths have occurred in this jail since November last. The Dinajpur Jail is situated in an unhealthy district, and out of the 16 prisoners who died during the year, 7 were admitted in bad health, 7 in indifferent health, and only 2 in good health. The Superintendent is now able to report a considerable improvement in the health of this jail. At Singhbhum, out of 13 convicts who died, 6 were received in bad or indifferent health. Cholera and bowel-complaints were prevalent all over the district during the middle months of the year, and 12 out of the 13 deaths occurred from these diseases. In Jalpaiguri the 7 convicts who died were all received in bad or indifferent health, and in Rangpur, out of the 20 who died in jail, only 5 were in good health when admitted. The mortality among the prisoners received into the Birbhum Jail from the district itself was only 25·9 per mille, and the high rate shown above is due to the transfer of sickly prisoners from the Rangpur Jail to Birbhum. Of the 9 convicts who died in the Bogra Jail during the year, 5 were received in bad or indifferent health. At his inspection of this jail Sir Charles Elliott noticed certain defects in the water-supply and in the position of the hospital quarters, and the attention of the Inspector-General was drawn to these defects, and measures have since been taken to remedy them. In Jessore only 4 out of the 18 convicts who died were received in good health, while of the 3 who died at Malda, 2 were in bad and 1 in indifferent health when admitted. The Committee appointed to enquire into the unhealthiness of the Jails at Purnea, Rangpur, and Dinajpur submitted its report during the year. Of the several valuable recommendations made by the Committee some have already been carried out, and effect will gradually be given to the others as opportunities arise.

The Inspector-General attributes the high rate of mortality among prisoners, as compared with 1891, chiefly to the unhealthiness of the year and to the prevailing scarcity. This is to a great extent borne out by a comparison of the figures for the past year, as shown in Statement XVIII appended to the report, with those of the previous year. The number of deaths

among convicts in 1892 exceeded the number for 1891 by 118. Among prisoners who had been less than six months in prison when they died, there was an increase of 104 deaths, while among those who had been in prison for terms varying from 6 to 12 months there was an increase of 16 deaths. The number of deaths among convicts who had undergone more than 12 months' imprisonment is practically the same for both years. Deaths among under-trial prisoners rose from 37 in 1891 to 69 in 1892. These figures show clearly [that the increase in the number of deaths occurred among those who had recently come into the jail, and this bears out the theory that the high rate of mortality was mainly due to the unhealthiness of the season and to the prevalence of disease and want outside the jails, and not to diseases contracted within the walls. This is no doubt the true explanation of the high rate of mortality throughout the jails of the province. Nevertheless the record of the year is far from encouraging, and Sir Charles Elliott desires to impress once more upon all Superintendents of Jails the necessity of devoting special attention to this the most important of all the questions affecting jail administration. His Honour trusts that the close of the present year will show a large decrease in the prison death-rate throughout the jails of the province.

29. During the period that he was in charge of the department,

*Inspections.*

Dr. Comins visited 28 jails, including all the Central Jails, and 9 Subsidiary Jails. Dr. Lethbridge inspected 8 jails previous to the 28th March, the date on which he made over charge to Dr. Comins. The number of inspections made by Judicial and Magisterial Officers increased from 2,145 in 1891 to 2,236 in 1892, but the number of visits paid by non-official visitors fell from 144 in 1890 and 137 in 1891 to 104 during the year under review. The Lieutenant-Governor himself inspected the jails at the head-quarters of all districts and sub-divisions which he visited and made special inspection notes in four cases.

30. The Lieutenant-Governor is glad to notice the favourable mention

*Officers of the Department.*

made by the Inspector-General of several officers of his Department. Among those who receive special commendation are Dr. Bovill of Borhampore and Dr. Umesh Chandra Mukerji of Bankura. The thanks of the Lieutenant-Governor are due to Dr. Comins himself for his zealous administration of the department during the year. His report is thorough and painstaking, and shows that careful regard to details, which is the basis of all improvement in the health, the cost, and the labour-outturn of prisoners, the three points which most require his continued and vigilant attention.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Inspector-General of Jails for information and guidance.

Ordered also, that a copy of this Resolution, and a copy of the Report, be submitted to the Government of India, in the Home Department.

Ordered also, that a copy of this Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

H. J. S. COTTON,

*Chief Secretary to the Govt. of Bengal.*

RE-ORGANISATION OF THE STAFF OF SUPERIOR POLICE OFFICERS  
IN BENGAL AND ASSAM.

POLICE.

RESOLUTION No. 97A—D.

*Dated Darjeeling, the 20th May 1893.*

Read again—

A letter from this Government, to the Government of India, No. 348, dated 25th January 1892, submitting proposals for the revision of the staff of superior police officers in Bengal and Assam.

Read—

A letter from the Government of India, in the Home Department, No. 180, dated 25th April 1893, forwarding a copy of a Despatch from the Government of India, to Her Majesty's Secretary of State, No. 23, dated 18th January 1893, and of a Despatch from the Secretary of State, No. 9, dated 23rd February 1893, according sanction, with minor modifications, to the scheme of re-organisation proposed by this Government.

THE main principles of the proposals made by this Government for the re-organisation of the staff of superior police officers, which have now been approved by the Government of India and Secretary of State, are (1) that there should be a District Superintendent of Police for every district in Bengal, the present practice, under which five districts are supervised by Assistant Superintendents, being abandoned; and (2) that Assistant Superintendents of Police should only be provided for the most important sub-divisional charges and as a reserve for leave vacancies. The effect of these proposals is that the number of District Superintendents will be increased from 50 to 55, the future distribution being as shown below:—

For charge of districts in Bengal ...	...	45
Commandant, Lushai Police ...	...	1
Personal Assistant to the Inspector-General of Police ...	...	1
Assistant Inspectors-General of Police for Railways ...	...	2
District Superintendents of Police for Assam ...	...	6
Total ...	...	55

The existing number of sanctioned Assistant Superintendents will be reduced from 36 to 29, and the number of probationary Assistant Superintendents from 15 to 8.

The distribution of Assistant Superintendents will be as follows:—

Employed in Assam ...	...	5
Lushai Hills and large subdivisions ...	...	8
Deputy Commissioner of Police, Calcutta ...	...	1
In charge of Special Branch ...	...	1
		15
Provision for furlough at 20 per cent. on 72 charges, including 2 Deputy Inspectors-General ...	...	14
Total ...	...	29

2. At the same time the appointments of District Superintendents and of Assistant Superintendents will be regraded thus:—

Present scale.				Sanctioned scale.			
District Superintendents of Police.							
	Rs.		Rs.		Rs.		Rs.
7	at 1,000	=	7,000	5	at 1,000	=	5,000

*Probationers.*

		Rs.		Rs.			Rs.		Rs.
15	at	250	=	3,750		8	at	250	= 2,000

Decrease = Rs. 1,750 per mensem.

The grades of District Superintendents are increased from five to six, and the grades of Assistant Superintendents are reduced from three or two.

These orders have been communicated to the Local Government with instructions to give effect to them gradually, so that the proposed regrading of District Superintendents may, as far as this can be arranged without serious inconvenience, be brought into force *pari passu* with the reduction in the strength of Assistant Superintendents and Probationers.

3. In consequence of the reduction which has already been effected in the number of Assistants and probationers, and of the recent retirement and deputation of officers whose places have not been filled up, the Lieutenant-Governor finds himself in a position to give immediate effect to the proposed revision of establishment, so far as numbers are concerned, and although it is not possible at present to fill up all the appointments according to the revised scale, a redistribution of grades in the direction sanctioned can at once be made. Excluding Messrs. Savi and Gayer, whose lien on their appointments will be suspended, there are at present 93 officers on the establishment against 92, which is the full number sanctioned by the Government of India and Secretary of State, and, under the authority now conveyed by the Government of India, the Lieutenant-Governor is pleased to direct that these officers shall at once be redistributed into grades as follows :

						Rs.
8	District Superintendents,	at Rs. 1,000 each	...	...	...	8,000
2	Ditto,	at " 900 "	...	...	...	1,800
7	Ditto,	at " 800 "	...	...	...	5,600
12	Ditto,	at " 700 "	...	...	...	8,400
12	Ditto,	at " 600 "	...	...	...	7,200
14	Ditto,	at " 500 "	...	...	...	7,000
						38,000
14	Assistant Superintendents	at Rs. 400 each	...	...	...	5,600
15	Ditto,	at " 300 "	...	...	...	4,500
						10,100
9	Probationers	at " 250 "	...	...	...	2,250
						50,350
Total	93 at a monthly cost of	...	...	...	...	50,350

4. This re-arrangement shows one probationary officer, and a monthly expenditure of Rs. 150 in excess of the sanctioned scale. The excess expenditure is, however, apparent, only, as it includes the salary of an officer (Mr. Halliday) on deputation, which is debitable to another department, and not to the Police budget. The probationary officer in excess will be absorbed in the first vacancy that occurs. The re-distribution in the grades of District Superintendents on the exact lines of the sanctioned scale will be enforced as opportunities occur, but it cannot be completely carried out until vacancies arise in the first grade of District Superintendents, and the number of officers in that grade is reduced to five. As such vacancies occur, there will be a re-adjustment in the lower grades until the sanctioned scale is reached.

5. Probationers who have passed their departmental examinations and have been confirmed in the department will be allowed to officiate as Assistant Superintendents, and draw the higher salary of the grade in which they may be acting.

6. The following statement shows the effect of the orders now passed. The names of the officers who receive promotion are printed in *italics*, and their promotion will be duly notified in the Gazette:—

*District Superintendents of Police, 1st grade, on Rs. 1,000 (eight).*

\* Means of 6 days. † Mean of 6 days.

**Explanation.—Summary.**—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period. The humidity of the atmosphere is expressed as percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 100. The rainfall the normal means are the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional stations in the district, i.e., from total rainfall at the subdivisional stations in the district, reading in returns divided by the number of stations. A rainy day is one of

**SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS  
TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY,  
THE 20TH MAY 1893.**

At the beginning of the week pressure was considerably above the normal in the north-western districts, and from there excess slowly diminished towards the south-east of the Bay where there was a small defect. In consequence of this arrangement of pressure, the most prominent feature being its uniformity, calm clear weather prevailed over the whole of Bengal and Orissa. With the almost continuous sunshine, temperature from being slightly below the normal in all districts, began to rise, and readings in excess of the normal were first reported from North Bengal and Assam. The area of excessive temperature gradually extended to the south-west, till by the end of the week there was a small excess even in Orissa and Chota Nagpur.

Pressure began to fall early in the week both in Bengal and over the Bay, and this downward change continued steadily, and latterly with somewhat greater rapidity in the south of the Bay, where gradients became much steeper, especially during the last two days of the week. These changes in the south of the Bay led to unsettled weather which advanced up the east of the Bay and caused general rain in Barmah. A few showers fell in East and North Bengal owing to the advance of moist winds, and this formed almost the whole of the rainfall received during the week.

The week has been characterised in Bengal by fine settled weather with rising, and almost for the first time this year, general excessive temperature.

*Pressure.*—A steady fall continued slowly almost throughout the week, and from being a tenth of an inch above the normal, readings fell to nearly a tenth of an inch below. The means for the whole week are practically normal, the difference being generally only a few thousandths of an inch.

*Temperature.*—Rose steadily and at times rapidly, the rise beginning in the north-east of the province and spreading gradually to the south-west. It was only on the last day of the week that readings in Orissa and Chota Nagpur rose above the normal. Though there was general defect at the beginning of the week, means are above the normal in all districts except Chota Nagpur and Orissa, when there is defect of less than 1°. The mean excess varies from 0.4° in South-West Bengal to 3.9° in North Bengal. Excess is much greater in Assam, being more than 6°.

*Rainfall.*—With the exception of a few scattered showers on the first day of the week and again towards the close, rainless weather prevailed. On an average East Bengal received .22 inch, South-West Bengal .1 inch, North Bengal and Orissa less than .1 inch. In Chota Nagpur and Bihar no rain was reported.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 20th of May 1893:—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph. The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

### RESOLUTION ON THE ANNUAL REPORT OF THE HEALTH OFFICER OF THE PORT OF CALCUTTA FOR THE YEAR 1892.

No. 1119 Marine.

GOVERNMENT OF BENGAL, MARINE DEPARTMENT.

*Dated Calcutta, the 1st May 1893.*

#### RESOLUTION.

#### READ—

A letter, No. 2586, dated 28th March 1893, from the Sanitary Commissioner for Bengal, submitting the report of the Health Officer of the Port of Calcutta for the year 1892.

*Establishment.*—Dr. Forsyth was the Health Officer of the Port of Calcutta throughout the year, except from the 3rd September to 28th October, when Surgeon Captain Green officiated for him. The work was carried out in the steam launch *Relief*, and in a steam cutter.

2. *Inspections.*—The total number of vessels inspected by the Health Officer of the Port during the year was 1,497 against 1,501, 1,394, and 1,443 in the three preceding years. Sir Charles Elliott desires that in future reports the number of vessels that entered the Port in the year should be given with the number of vessels uninspected, and the reasons for such non-inspection.

3. *Ventilation of crew spaces.*—The ventilation of the fore-castle of iron built cargo steamers has, in a few cases, been improved, but in no instance has a wooden sheathing been laid over the iron roof.

The Health Officer writes:—"In the case of the Greenock Shipping Company, I hope that their vessels will be improved, as the Secretary was in port in April and May, and he admitted that the Managers had not the faintest idea of what life in the fore-castle was in the Indian hot season; that he would on his return place my suggestions before the Manager for immediate compliance; and that, in case of additions to their fleet, he would suggest that all quarters should be built on deck. In the latest additions to the City Line of steamers, quarters for the crew are built on the upper deck. The contrast between these and the quarters on the main deck is great, and no line visiting this port give their crews such well lighted and ventilated quarters."

The question of improving the accommodation for the crew of such steamers has been referred to the Government of India, in the Finance and Commerce Department, with the suggestion that the Board of Trade should be moved to endeavour to give effect to Dr. Forsyth's suggestions for sheathing the fore-castle deck, and for improving the ventilation of, and providing a double awning with side curtains for, the fore-castle. If the Board of Trade refuse to insist on these alterations being made, the Lieutenant-Governor is of opinion that it will be necessary to amend the Indian Ports Act of 1889 so far as to enable the Local Government to insist on such temporary alterations being made, while the vessel is in port, as will meet the requirements of the case.

4. *Bathing accommodation for native crews.*—The provision of a protected bathing place is being carried out on nearly all vessels coming to the port.

5. *Sickness and mortality among European seamen.*—The number of European seamen who arrived in the Port during the year was 21,635, against 21,505 and 19,496 in the two preceding years, and the daily average number in Port was 2,133 against 1,420 and 1,679. Including deaths out of hospital, the death rate per mille during the year was 11·72. Of this 3·28 was from cholera and 8·44 from other causes. The Lieutenant-Governor views with great satisfaction this low death-rate, which is the lowest on record.

The total number of natural deaths was 25, against 42 and 40 in the two preceding years. Of these 25 deaths, 22 occurred in hospital and 3 outside.

The total number of admissions into hospital was 2,204, against 1,284 and 1,419 in the two previous years. No reason is given for the large increase in the number of admissions into hospital.

The admissions from cholera numbered 12, with 7 deaths; from sunstroke 7, with 3 deaths; and from small-pox and scurvy 2 and 8 respectively, with no deaths. The number of cases of drowning was 8 against 9 and 14 in the two preceding years.

The Coroner of Calcutta having reported in the case of one of the deaths by drowning that there was unnecessary exposure to the sun, copies of Marine Notification No. 104 of the 14th April 1891, prohibiting work involving direct exposure to the sun between 9 A.M. and 4 P.M., were circulated to the Masters of Ships in the port, and the Commissioner of Police directed to prosecute under section 54 of the Indian Ports Act any breaches of the rule observed.

6. The following table gives the admissions into hospital of European seamen suffering from venereal diseases:—

Year.	Total admissions.	Rate per mille.
1883	237	127·4
1884	184	109·2
1885	170	100·4
1886	417	179·2
1887	228	120·4
1888	183	121·1
1889	186	114·3
1890	248	147·7
1891	185	129·7
1892	479	224·5

The number of admissions during the year is the highest on record, and the Health Officer reports that the masters of vessels complain of numbers of their crew being rendered unfit for work soon after leaving port from venereal affections.

7. There were 43 deaths at sea during the year on vessels entering the port, against 28 and 32 in the two preceding years.

8. *Sickness and mortality among the native floating population.*—The following figures give the mortality from all causes among the native floating population, the averages being calculated on a population of 25,000 :—

	Total deaths.		Ratio per mille.	
	1892.	1891	1892.	1891
Cholera	73	97	2.92	3.88
Bowel complaints	3	7	0.12	0.28
Fever, malarious	11	11	0.44	0.44
Do., simple	13	22	0.52	0.88
Other causes	32	33	1.28	1.32
Total	132	170	5.28	6.80

Of the 132 deaths, 35 occurred in hospital, of which 21 were from cholera.

9. *Food.*—The complaints as to the quality of food on board vessels coming to the Port were few, and of these only a few were justified. The Health Officer mentions that the sailors after being a long time in port are very desirous of occasionally being given salt meat as a change.

10. *Conservancy.*—The drain and latrine in Messrs. Ahmuty and Company's compound, noticed in the Resolution on the Annual Report of the Health Officer for 1891, has been altered to meet requirements, but the Health Officer reports that the brickfield foreshore at Ghosery, and the Mateabroog foreshore of Babu Doorga Prosonno Ghose's property, are still used as latrines by the public. The attention of the District Magistrates will be drawn to this.

11. *Corpses and carcasses.*—The Lieutenant-Governor is pleased to find from the Health Officer's report that there has been some decrease in the number of corpses and carcasses found floating in the river.

12. *Water supply.*—The supply of Municipal filtered water to the vessels in the port was satisfactory in every respect.

13. The Health Officer has, in the course of his report, made several suggestions and proposals which require much consultation and consideration from legal and other aspects. It should be remembered that the annual report is a record of the events of the year, and questions on which orders are required should be separately submitted.

The information given in the report regarding the accommodation of European seamen, the crowding of the quarters of native crews, the sea-diet scale of sailing vessels, and the facilities existing for the communication of reasonable grievances of sailors as regards the quality of their food, and the seaworthiness of the ship, is important as bearing on the welfare of seamen, and it is therefore well that the public should know that the alleged defects are under consideration, and that the question whether the Government can lawfully interfere in any of these matters, or would be well advised to do so, will be separately considered.

By order of the Lieutenant-Governor of Bengal,

C. W. ODLING,

Secretary to the Govt. of Bengal.

# ANNUAL REPORT ON THE WORKING OF THE CHEMICAL EXAMINER'S DEPARTMENT FOR 1892.

## RESOLUTION.

Other departments	150	100
Total tested for purity and quality	1,649	1,658
GRAND TOTAL	3,063	3,403

2. The number of analyses performed during the year under report was 3,403 against 3,063 in 1891 and 2,746 in 1890. These figures show a considerable increase of work in the Chemical Examiner's Department. Besides analytical work, the Chemical Examiner had to report on 16 technical questions referred to him, and on 10 applications for leave to file specifications for patent processes.

3. The increase was almost entirely in the number of medico-legal analytical cases, which rose from 1,414 to 1,745. In 1,426 of these cases (against 1,101 in 1891) human viscera or other substances were sent up for examination under the suspicion of containing poison. In 150 out of 276 human viscera, and in 489 other cases of suspected substances, out of 1,000 sent up, no poison was found. The principal poisons detected were arsenic, opium and aconite. In the case of human remains, opium was the most common form of poison, having been found in 26 per cent. of these cases. Arsenic was discovered in as many as 79·59 per cent. of the supposed cattle-poisoning cases in which animal viscera were sent up for examination.

4. The Lieutenant-Governor notices with satisfaction the increase which has taken place in the number of samples of potable water sent up for analysis, which increased from 61 in 1890 to 100 in 1891 and 149 during the year under report. Of the 149 samples examined in 1892, 13 were for Municipal authorities, 69 for jails and 67 for other departments. The results of these analyses are set forth in a special table in the Chemical Examiner's Report. After issue of the Resolution on the Administration Report for 1891, the Sanitary Commissioner was asked when inspecting a municipality to procure samples of the water in ordinary use, in order that they might be submitted to the Chemical Examiner for analysis. The Lieutenant-Governor hopes that greater effect will be given to these orders during the current year, and he desires that the Deputy Sanitary Commissioners will share in this work. The duty of testing the water of all the towns in Bengal must be taken up on a uniform and general plan, so as to obtain information where a pure water-supply ought to be provided, and where it is possible to rest content with the present supply. This should be the work of the Sanitary Commissioner. Besides this, whenever an epidemic of sickness occurs, which the Civil Surgeon thinks attributable to the water of the place, he should be authorised and enjoined to send in samples of the water for examination. Separate instructions will be issued to this effect.

5. The thanks of the Lieutenant-Governor are due to Dr. Ranking for his concise but full report, and for the good work he has done during the period he held charge of the office. The Lieutenant-Governor also notices with satisfaction the high terms in which Dr. Ranking speaks of the work done by the Assistant Chemical Examiner, Rai Taraprasanna Ray Bahadur.

By order of the Lieutenant-Governor of Bengal,

J. A. BOURDILLON,

*Offg. Secretary to the Govt. of Bengal.*

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period. The humidity of the atmosphere is expressed at percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 101. The rainfall the normal mean are the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional station district, i.e., from total rainfall at the subdivisional stations in the district sending in returns divided by the number of stations. A rainy day is one of

for the week ending Saturday, the 29th of April 1893.

Explanation.—... indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are in feet, the corresponding space in the total rainfall column is left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0'1 inch of rain has fallen.

CALCUTTA, the 2nd May 1893.

**SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS  
TAKEN IN BENGAL FOR THE WEEK ENDING 8 A.M., SATURDAY,  
THE 29TH APRIL 1893.**

FAIRLY settled weather prevailed at the beginning of the week in all districts, except East and North Bengal, where rain was falling in local showers. The pressure distribution was very nearly normal over the greater part of the province, but there was a shallow low-pressure area to the south-west, and this was causing easterly winds in Lower Bengal.

During the first two days pressure rose considerably, and as the increase was rather greater towards the north, the relatively low readings continued in the south-west. After this, however, a double series of important changes commenced. A small cyclonic storm formed in the Andaman sea, and a little later a depression approached from the north-west. The cyclonic storm passed over Rangoon on the 27th, moving in a north-easterly direction, after giving rather stormy weather on the coast and heavy general rain in Lower Burma. Very large atmospheric oscillations followed, due to the recovery of pressure in Burma after the small storm passed away, and partly to the approach of the other depression from the west. Gradients from being very slight over the north of the Bay became in a short time much steeper than is usual at this time of the year. In consequence of the steeper gradients strong moisture-laden winds blew in all districts, and general rain fell except in Orissa and part of South-West Bengal. Rainfall was most general on the last day of the week, and heaviest in East Bengal. The depression from the west was then over the central districts, and was causing strong easterly winds at all stations to the east of it.

**Pressure.**—Changes during the week have been unusually large. The fairly rapid rise in the early part of the week brought readings to about a 10th of an inch above the normal. The fall which then set in caused a large defect during the remaining days of the week. The changes on the 27th, when the small storm was passing near Rangoon varied from a rise of a twentieth of an inch in the west of Bihar to a fall of .176 inch at Rangoon, a relative fall of nearly a quarter of an inch. On the 28th, when pressure was rising in Burma, changes varied from a rise of .157 inch at Rangoon to a fall of .177 inch at Arrah, a relative change of a third of an inch in a direction opposite to that of the previous day. Defect then ranged from .13 inch in the south of the Bay to .25 inch at Delhoo. On the 29th pressure was again rising, and readings were relatively lowest at some of the central stations.

**Temperature.**—Has been steadily below the normal by several degrees at all except a few stations in North Bihar, North Bengal, and East Bengal, where there has been at times a small excess. Means are everywhere below the normal, and the average defect for the large divisions varies from 2.3° in North Bihar to 6° in Chota Nagpur.

**Rainfall.**—Numerous showers have fallen in all districts. General heavy rain has fallen in North Bengal and parts of East Bengal, but in the extreme west of the province the falls were much lighter and more scattered, especially in the western districts of South Bihar. As the rainfall was due to thunder-storms, the amounts recorded at the rainfall stations are very various in amount, but the mean falls for the larger divisions are all above the normal. Excess is 1.64 inches in North Bengal, 1.04 inches in North Bihar, and in the other districts it varies from .84 inch to .39 inch. The amount received in South Bihar is nearly nine times the normal fall for the week, and in Chota Nagpur more than eleven times.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 29th of April 1893:—

[First Publication.]

JAPAN—SIMONOSEKI STRAIT.

*Sunken rocks south-west of fairway of western entrance.*

THE British Admiralty has given notice (No. 157 of 1893) of the existence of the three undermentioned sunken rocks lying about  $2\frac{1}{2}$  cables south-west of the "Best track through" the western entrance to Simonoseki (Nagato) strait, as shown on Admiralty charts:—

1. A rock (*Katanose rock*) with  $3\frac{1}{2}$  fathoms water on it, lies with Kita saki, bearing N.  $79^{\circ}$  E., distant nearly  $1\frac{1}{2}$  miles, and Manaita rock beacon S.  $44^{\circ}$  E.  
Approximate position: lat.  $38^{\circ} 57' 5''$  N., long.  $130^{\circ} 50' 50''$  E.
2. A rock (*Toridashi rock*), with  $2\frac{1}{2}$  fathoms water on it, lies with Smooth hill (365' high) bearing N.  $84^{\circ}$  E., distant 2 miles, and Manaita rock beacon S.  $43^{\circ}$  E.  
Approximate position: lat.  $38^{\circ} 56' 30''$  N., long.  $130^{\circ} 51' 30''$  E.
3. A rock (*Kasase rock*), with one fathom water on it, lies with Smooth hill (*Oinoyama*) bearing N.  $64^{\circ}$  E., distant  $1\frac{1}{2}$  miles, and Manaita rock beacon S.  $43^{\circ}$  E.

Approximate position: lat.  $33^{\circ} 56' 5''$  N., long.  $130^{\circ} 52' 15''$  E.

The depths given are at low water.

NOTICE TO MARINERS—No. 103.

[First Publication.]

CHINA—EAST COAST—PUTOY GROUP—HONGKONG APPROACH.

*Intended double flashing light and fog-signal on Wag lan islet.*

THE British Admiralty has given notice (No. 160 of 1893) of the intended exhibition of a light from a light-house now in course of construction on Wag lan islet, Putoy group, approach to Hongkong by the Tathong channel:—

Wag lan islet light will be a *double flashing white* light of the first order, showing flashes at intervals of *half a minute*. It will be elevated 225 feet above the sea, and should be visible in clear weather, where not obscured by the land, from a distance of about 21 miles.

The light-house situated on the summit of the islet will be 52 feet high, and cylindrical in shape. The lower half will be painted white, the upper half red, the lantern and keepers' dwellings, white.

Approximate position: lat.  $22^{\circ} 11\frac{1}{2}'$  N., long.  $114^{\circ} 18\frac{1}{2}'$  E.

Also, that on the establishment of Wag lan islet light, the keepers, on hearing a bell, horn, steam-whistle, or other sound indicating the proximity of a vessel, will fire two guns with an interval of *fifteen seconds* between them, and if the vessel's fog-signal—showing that she is under way—continues to be heard, the guns will be repeated after an interval of *twelve minutes*.

AFRICA, NORTH-EAST COAST—GULF OF ADEN, WEST SHORE.

*'Obokh—East passage closed, and alterations in buoyage.*

THE British Admiralty has given notice (No. 145 of 1893) that the East passage to the port of Obokh being considered dangerous, the buoys previously marking it have been withdrawn.

Also that the South port (or Grand) passage is now the only available entrance to the port, and that the red buoy on the east side of that passage is now moored about three quarters of a cable S.  $16^{\circ}$  E from its heretofore charted position.

AUSTRALIA, EAST COAST—PORT CURTIS.

*Alteration in North channel and buoy altered in position.*

THE British Admiralty has given notice (No. 146 of 1893) that the sand spit (opposite Junction buoy) on the northern side of the North channel to port Curtis has extended about 73 yards in a south-easterly direction, and that the red buoy has been moved to mark its extremity. The channel in this port being now only about 270 yards wide, Mariners should exercise caution when using it at night, and when proceeding through, Gatcombe head light (*fixed white and red*) should not be opened northward of Oyster rock reflected light.

[Second Publication.]

RED SEA, WESTERN SHORE—MASSAWA CHANNEL, NORTHERN APPROACH.

*Breakers reported in fairway.*

THE British Admiralty has given notice (No. 150 of 1893) that Mr. Kemp Saunders, commanding the S.S. *Shat-el-Arab*, when proceeding towards Sucoz from the Massawa channel sighted breakers about  $35\frac{1}{2}$  miles N.  $\frac{1}{2}$  E. from Difnein island:—

A cast of the lead obtained  $3\frac{1}{2}$  miles N. by W.  $\frac{1}{2}$  W. from the breakers gave no bottom at 115 fathoms.

Approximate position of breakers, lat.  $17^{\circ} 13' N.$ , long.  $39^{\circ} 20\frac{1}{2}' E.$

NOTE.—This break was passed at about 2 miles distance, at noon; the appearance of the break being seen for an hour; a northerly swell prevailing. The position appears unassailable. Unless therefore the eye was deceived by fish, light, or other delusive appearances, it would appear that a most dangerous shoal exists in the very fairway of approach to Massawa channel.

*Light on Brooketon Hill.*

THE following Notice to Mariners, issued by the Vice-Admiral Commanding the Naval Forces in Neth. India, No. 8, dated Batavia, the 10th March 1893, is republished for general information:—

Information has been received from H. B. M. Acting Consul at "Labuan" that on 18th October 1892 a fixed white beacon light was exhibited on *Brooketon Hill*, west side of approach to *Bruni* river. The distance that this light is visible is doubtful. It is situated  $2\frac{1}{10}$  miles S.  $\frac{1}{2}$  E. from *Peleng* rocks, in approx. lat.  $5^{\circ} 2' N.$ , long.  $115^{\circ} 3' E.$

A similar light is said to exist on *Barram* point, of which no definite information has been received.

Approx. position of *Barram* point: lat.  $4^{\circ} 37' N.$ , long.  $113^{\circ} 59' E.$

AUSTRALIA—BRISBANE RIVER.

*Restoration of buoys and beacons.*

THE Portmaster, Brisbane, has given notice (No. 13 of 1893) that all the aids to navigation in the Brisbane river which were removed or destroyed by the recent floods have now been restored, with the following modifications:—

The leading beacons for the Hamilton Reach Channel now lead close to the northern edge of the dredged channel marking the deepest water.

The Eagle Farm Flats leading beacons will be shifted today 150 feet east of their former position.

The magnetic bearings of the beacons in the above cuttings are unaltered.

The old iron West Beacon marking the turn between the Inner and Outer Bar leads will be replaced by a red triangular beacon on or about the 8th instant.

Mariners are advised that the deepest water in the Outer Bar is on the eastern side of the cutting.

AUSTRALIA—TASMANIA, WEST COAST

*Macquarie harbour—Signals from staff on west side of entrance.*

THE British Admiralty has given notice (No. 130 of 1893) that a signal staff has been erected on the bluff at the west side of the entrance to Macquarie harbour, from which the following signals are made by day :—

1. Two balls at the masthead signify :—flood tide.
2. One ball at the masthead signifies :—ebb tide.
3. A square flag at the eastern yard-arm signifies :—alter course to the eastward.
4. A square flag at the western yard-arm signifies :—alter course to the westward.

Approximate position on plan No. 1629 : lat. 42° 11' 45" S., long. 145° 13' 15" E.

NOTE.—Sailing vessels, inward bound, should not attempt to cross the bar, on the ebb tide, without a strong commanding breeze.

In fine weather the pilot boards vessels outside the bar, but in bad weather, when the pilot cannot cross the bar, vessels should steer in with the lighthouses on Entrance island and Bushy islet in line. If the vessel is steering a safe course no flags will be shown at the signal staff, but if necessary signal (3) or signal (4) will be hoisted. When the direction of the ship's head is sufficiently altered the flag will be hauled down.

When practicable the pilot will direct the vessel's course by flags from a boat. In this case vessels should steer direct for the boat, altering course if necessary towards the side of the boat on which a flag is shown.

No stranger should attempt to enter Macquarie harbour at night unless on a lee shore and unable to keep outside.

(2) *Prohibited anchorage near telegraph cable.*

Also that a submarine telegraph cable has been laid across Macquarie harbour entrance in the vicinity of Bushy island :—

The position of the cable is marked by a diamond shaped black beacon on the northern shore and by a diamond shaped white beacon on the southern shore.

Vessels are prohibited from anchoring in the vicinity of the cable; and it is advisable that they should not anchor in the space enclosed between lines drawn from Wellington head and Bushy (Bonnet) island to the black telegraph beacon on the northern shore.

CHINA—WUSUNG RIVER.

*Changes in depths on inner bar.*

THE British Admiralty has given notice (No. 132 of 1893) that information has been received that very considerable changes are taking place in the depths on the Inner bar, Wusung river :—

Mariners are therefore warned that Admiralty plan, Wusung river, with enlarged plan of entrance, No. 1601, cannot be implicitly relied on; and that it is necessary either to take a pilot, or obtain information as to the condition of the bar from the Custom signal station before attempting to cross it.

*Restoration of buoys and beacons.*

THE Portmaster, Brisbane, has given notice (No. 15 of 1893) that the channel from the bar to Bundaberg has been buoyed and marked in accordance with the alterations caused by the recent floods.

The beacons leading across the bar bear S. W. by W.  $\frac{1}{2}$  W. (magnetic), and the least depth on that line is 4 feet 6 inches at low water springs.

An alteration has been made in the lead up stream from Fairymead wharf; the triangular beacons there (lighted at night) now lead over to a square white beacon near Rubyana wharf.

The minimum depth in No. 1 cutting is 3 feet 3 inches at low water springs, and a gauge showing the depth in this channel has been erected at Rubyana wharf.
